FOREWORD

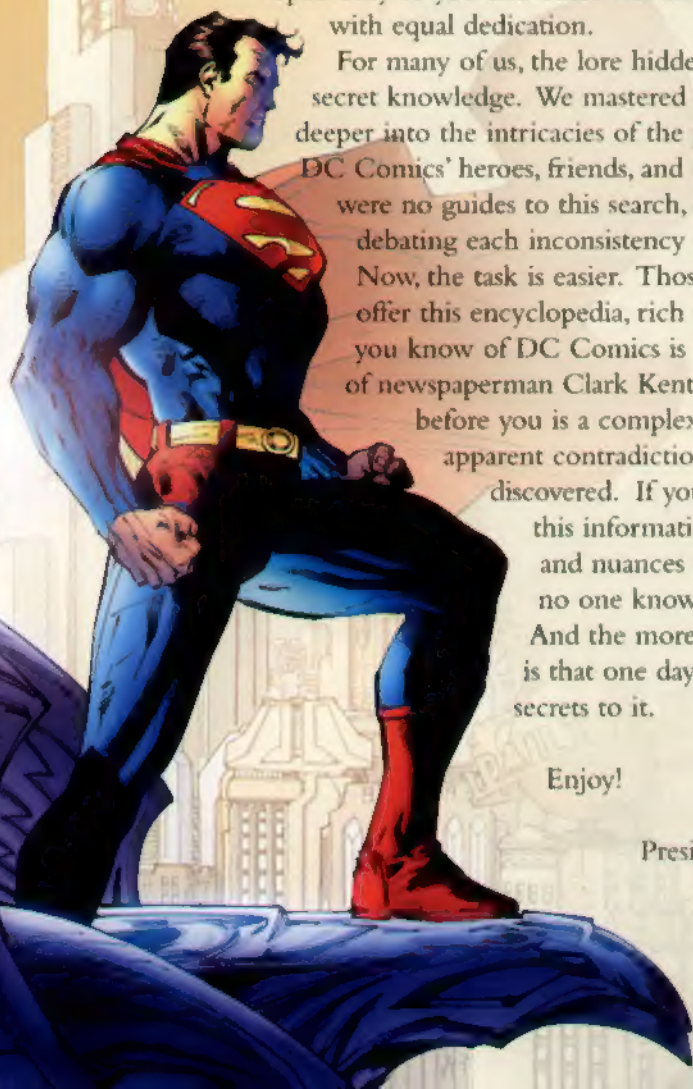

ONE OF THE WORLD'S great pleasures is secret knowledge. It begins in childhood: the things you learn that your parents don't know, or don't imagine you know. It can be the lifetime batting averages of every member of the New York Yankees, the evolutionary path of each of 151 Pokémon creatures... or the names and homeworlds of the Legion of Super-Heroes. Commit these arcane facts to memory, and you can speak a private language open only to you and other worthies who have approached this with equal dedication.

For many of us, the lore hidden in comics was our special secret knowledge. We mastered it as we grew, and delved deeper into the intricacies of the past, present, and future of DC Comics' heroes, friends, and foes. A generation ago, there were no guides to this search, so we had to build our own, debating each inconsistency found with passion.

Now, the task is easier. Those who have gone before you offer this encyclopedia, rich with secret knowledge. If all you know of DC Comics is that Superman is the alter ego of newspaperman Clark Kent of the *Daily Planet*, what lies before you is a complex fantasy world with details, apparent contradictions, and convolutions to be discovered. If you consider yourself a master of this information, there will still be nuggets and nuances aplenty for you to evaluate, for no one knows all of the DC Universe. And the more you know, the more likely it is that one day you will contribute your own secrets to it.

Enjoy!

AUTHORS' INTRODUCTION

DC COMICS TRACES its publishing history back to 1935; however, the mythology that links literally thousands of comics and characters together now stretches from the Big Bang to the end of time itself!

Of course, it was not the original intention for there to be a continuity that linked Batman to the Seven Soldiers of Victory or Adam Strange to Angel & The Ape; this process began gradually. In 1940, during comics' Golden Age (which ran from the 1930s to the mid-1950s), All American Comics—then a sister company of DC—gathered its greatest heroes together to swap stories at the monthly meeting of the Justice Society of America. That story, in *All Star Comics* #3, was the first time DC's main characters had spoken to one another. By the next issue, they had banded together; however, each mission required them to work on their own in chapters usually drawn by the series artist. And since there was little in the way of character development or recurring plot lines, the stories were fairly static.

Stan Lee changed all that. In 1961, when he started writing the adventures of the Fantastic Four, Spider-Man, Thor and others at Marvel Comics, he allowed his characters to refer to each other. Crossovers between characters, all operating out of New York City at the same period in time, offered rich story possibilities. And so the Marvel Universe was born.

By the late 1960s, DC editors began linking events from one book to another. This process accelerated rapidly as plots became more complex and characters more rounded; suddenly it was not unusual to have explanatory footnotes, which might refer a reader to the previous month, or as far back as 1945! As DC acquired properties from other companies (Captain Marvel and Blue Beetle among others), their characters and backstories were added to the expanding DC Universe, providing fresh grist for the mill.

However, after a while, the interrelatedness of stories and characters from one book to another threatened to become so complex that readers couldn't tell the players and their worlds without a scorecard! Occasional "reboots" of characters by new creative teams wanting to put their own stamp on their favorite heroes only added to the confusion.

By the mid-1980s, DC felt the situation was getting out of hand and a new storyline was introduced, the *Crisis on Infinite Earths*, to limit characters and action

to one earth and one timeline. DC also reintroduced its top characters to a new generation. Frank Miller and David Mazzucchelli's *Batman: Year One*, George Perez & Greg Potter's *Wonder Woman*, and John Byrne's *Superman* loudly told readers to forget the past; new legends were about to begin. Since then, some of those reinvention have been modified again as seen in the *Superman: Birthright* series. And the entire Universe received a sprucing up in a 2004 mini-series *Identity Crisis*.

The *DC Comics Encyclopedia* spans the timeline of the DC Universe. The facts about characters' pasts, powers and personalities are current, as of early 2004 and, since DC continues to publish monthly, some facts may change over the next few years. We've worked closely with the editors to make sure we're reflecting the right information, so if you remember an incident differently than as reported here, it probably means circumstances were retrofitted to work within the current framework of the DC Universe.

We would have loved to include every DC character of any significance, but, sadly, this was impossible. However we have selected well over one thousand of DC's finest heroes villains, and team-ups, every one illustrated by great DC artists past and present. The *DC Comics Encyclopedia* is devised to run chronologically from A to Z, with a comprehensive index. The most important characters, such as Superman, Batman, the JLA, have their own double-page features; each major character has an entire page, and each supporting character has a panel or entry. Each character also has his or her own data box detailing key facts and special powers. In addition there are several themed double-page features on topics such as vehicles, battles, bases, team-ups, and romances.

So, if you can't find a favorite weird little character from way back when, we hope these packed pages will offer you plenty in the way of compensation, celebrating, as they do, more than 70 years of fun, excitement and comic-book history.

ABRA KADABRA

FIRST APPEARANCE: FLASH (1st series) #128 (May 1982)

STATUS: Villain **REAL NAME:** Citizen Abra

OCCUPATION: Technomancer **BASE:** Keystone City

HEIGHT: 6'6" **WEIGHT:** 209 lbs. **EYES:** Blue **HAIR:** Black
SPECIAL POWERS/ABILITIES: Kadabra's magic-like powers were purely the result of futuristic technology. However, he is now a genuine sorcerer.

MAGIC MASTER

A futuristic criminal mastermind in two centuries, Abra Kadabra is consumed by two things—a desire for adulation and hatred of the Flash.

In the 6th century, Earth was ruled by the Chronarch and his Central Clockworks. Citizen Abra rebelled against the strict order of the Chronarch's world, championing individuality. Abra was seen as a criminal and banished to Earth's ancient past. Transplanted to Central City at the end of the 20th century, Abra used 6th-century technology to create a new identity and became the criminal Abra Kadabra. Desperate for adulation, and possessing powers so amazing they seemed magical, Abra Kadabra crafted a series of spectacular crimes, hoping to win adulation.

Thwarted time and again by the second Flash, Kadabra's technology was accidentally damaged, and he was transformed into a ghost-like entity. Removed to normal, Kadabra was brought back to the 6th century by a bounty hunter named Purgine. Kadabra was about to be executed when the Flash saved him and destroyed the Central Clockworks. Returning to the 21st century, Kadabra was stripped of his powers, but after a deal with the demon Nekron, Abra Kadabra became a true sorcerer, able to cast spells and fire energy bolts. He continues to be a threat to the Flash. PJ

AGAMEMNO

FIRST APPEARANCE: SILVER AGE #1 (July 2000)

STATUS: Villain **REAL NAME:** Unpronounceable/Unpelleable

OCCUPATION: Would-be universe conqueror **BASE:** Outer space

HEIGHT: Variable **WEIGHT:** Variable **EYES:** Variable **HAIR:** None

SPECIAL POWERS/ABILITIES: Induces inanimate objects with his energy, bringing them to life, causes persons to sleep bodies.

Composed of cosmic energy, Agamemno was one of the first sentient beings formed in the wake of the Big Bang. Upon seeing the vastness of space, Agamemno wanted to control it, to rule the other life forms just being born. His father, however, wanted to control the cosmos himself, thereby pitting himself against his son. Seeking an advantage to end this stalemate, Agamemno converted himself into sentient energy and soared the universe in search of three objects that could be pieced together into a killing weapon.

His search brought him to Earth during the early days of the modern heroic age, where he manipulated superpowered heroes and villains to do his bidding. The various members of the JLA managed to thwart his scheme, however, and kept the objects from being used. Agamemno then returned to space, seeking another way to beat his father for control of the cosmos. RG

ACRATA

FIRST APPEARANCE: SUPERMAN (2nd series) Annual #12 (Aug. 2000)

STATUS: Hero **REAL NAME:** Andrea Rojas

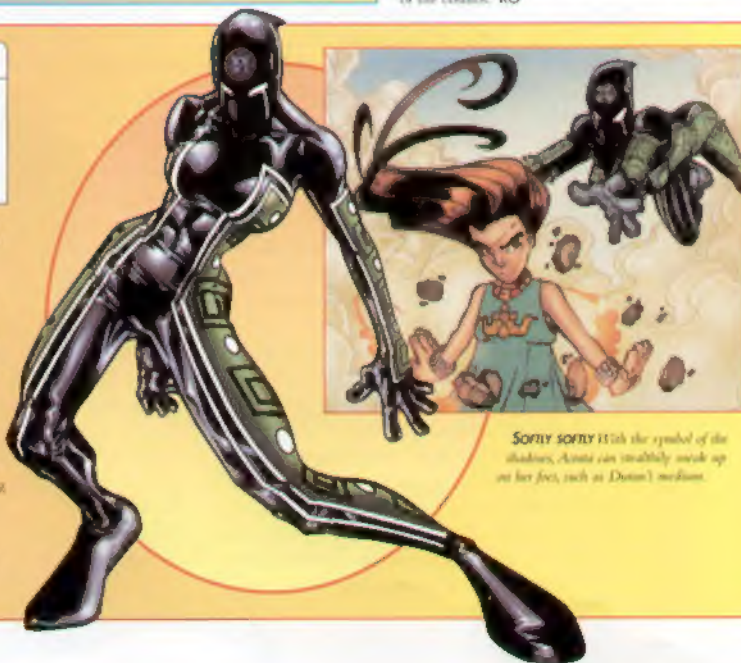

OCCUPATION: Mesoamerican anthropologist **BASE:** Mexico City

HEIGHT: 5'6" **WEIGHT:** 125 lbs. **EYES:** Blue **HAIR:** Red

SPECIAL POWERS/ABILITIES: Superb athlete and martial artist.

In her youth, Andrea Rojas moved with her family from Cobán, Guatemala to Mexico while her father continued his studies of Mesoamerican culture for the National Museum of Anthropology in Mexico City. Joining in her father's work, Andrea also became learned in ancient myths and languages. However, she was increasingly distracted by the modern-day ills suffered by her culture, particularly those created by narcotics trafficking and rampant crime. A gifted athlete and martial artist, Andrea adopted the masked identity of Acrata, a name which, when translated, means "those who suppress authority," and decided to fight organized crime.

Wearing a costume adorned with the Mayan symbol of the shadow, a totem that purportedly allowed Mexican priests to travel stealthily in the dark, Acrata began striking at the drug cartels of South America, frequently uniting with fellow Mexican heroes IMAN and EL MUERTO. The trio once teamed with SUPERMAN to defeat the sinister sorcerer DURAN. As her calling card, Acrata leaves spray-painted literary epithets to mark her capture of a perpetrator or prevention of a crime. SB

SOFTLY SOFTLY It's the symbol of the shadow, Acrata can stealthily sneak up on her foes, such as Dorian's medium.

AGENT LIBERTY

FIRST APPEARANCE: SUPERMAN (2nd series) #60 (October 1991)

STATUS: Hero **REAL NAME:** Benjamin Lockwood

OCCUPATION: Covert agent **BASE:** Mobile

HEIGHT: 6ft 2in **WEIGHT:** 195 lbs **EYES:** Blue **HAIR:** Brown

SPECIAL POWERS/ABILITIES: Master of armed combat and espionage; outfitted with a battle suit that bristles with weaponry; gauntlets generate bullet-deflecting force fields or become jagged bayonets; a jet pack enables him to soar into the air.

As part of a C.I.A. anti-terrorist mission that went wrong, operative Ben Lockwood survived in hostile terrain for months. Upon returning to the U.S. he joined a super-patriotic, well-funded team of radicals called the "Sons of Liberty" on the recommendation of his former Bureau chief. As Agent Liberty, Lockwood enjoyed access to high-tech armor and weapons, as well as a helicopter team that covered his back on particularly dangerous missions.

In one of his first cases, Agent Liberty helped SUPERMAN crack down on INTERGANG crooks. Agent Liberty broke ranks with the Sons of Liberty when the organization ordered him to assassinate Senator Pete Ross (or Ross, Pete). He refused—killing his former mentor in the process—and forwarded classified information on the Sons of Liberty to Daily Planet reporter Clark Kent before beginning a new life on the run. Despite his lack of superpowers, Agent Liberty has put in a short stint with the JUSTICE LEAGUE OF AMERICA. DW

AGONY AND ECSTASY

FIRST APPEARANCE: HELLBLAZER #12 (December 1988)

STATUS: Villain **REAL NAMES:** Agony and Ecstasy

OCCUPATION: Hell's enforcers **BASE:** Hell

HEIGHT: 7ft **WEIGHT:** Unknown **EYES:** White **HAIR:** Flaming red

SPECIAL POWERS/ABILITIES: It is not clearly understood what happens to those unfortunate who are taken by Agony and Ecstasy; perhaps Hell's just as well.

Agony and Ecstasy are Hell's enforcers, a pair of "imprisonment police" who track down any demons or other underlings who dare to break the rules or to oppose the authority of Hell. They are demonic twins whose beautiful, luminous bodies are draped in rusting barbed wire. When Lucifer abdicated his role as ruler of Hell and enquired it of all its demons, the angels Hermal and Dama were given the key to its gates. They became its rulers, and assigned

Agony and Ecstasy the task of bringing back the demons that had escaped to realms beyond. Despite various upturns in Hell's hierarchy, Agony and Ecstasy remain ready to serve and punish, gleefully inflicting their renaissance upon any that defy its demonic leadership. PJ

AIR WAVE I

FIRST APPEARANCE: DETECTIVE COMICS #60 (February 1942)

STATUS: Hero (formerly) **REAL NAME:** Lawrence "Larry" Jordan

OCCUPATION: Crime fighter, District Attorney **BASE:** New York City

HEIGHT: 5ft 10in **WEIGHT:** 175 lbs **EYES:** Brown **HAIR:** Brown

SPECIAL POWERS/ABILITIES: Antennae in helmet and circuitry in belt allowed him to tap into a police band frequency or intercept telephone calls, recorded at the speed of electricity along telephone lines on collapsible dials built into boots; magnetic energies enabled him to clench with or release criminals at their guns.

Before he ascended to the lofty post of New York City District

Attorney, law clerk Larry Jordan wanted to do more than just file legal briefs to battle crime in the 1940s "Big Apple." He

built a special helmet and belt that gave him an array of amazing electronic and magnetic powers and lit the streets as the costumed Air Wave when he wasn't fighting injustice in court. A member of the wartime All-Star SQUADRON, Air Wave was subsequently killed by escaped convict Joe Parsons, a criminal once jailed by the crusading Attorney Jordan's wife, Helen, sought retribution in her husband's own costume, capturing Parsons and later testifying to keep him in prison for the rest of his days. Many years later, the role of Air Wave was taken up by Larry and Helen's son Harold, who refined the costume and its circuitry while operating as a teen hero. In adulthood, Harold retained his heroic alter ego Maser and serves as an auxiliary member of the JSA while keeping the spirit of Air Wave alive and well. SB

RIDING THE WAVES: Air Wave II is among the most powerful of Earth's young heroes.

AIR WAVE II

FIRST APPEARANCE: GREEN LANTERN (2nd series) #100 (Jan. 1978)

The young Hal was forced to live with his cousins Jack and Jim Jordan after his mother was placed in an institution. Hal became the second Air Wave after he inherited the helmet and equipment his father had used for crime fighting. The second Air Wave trained briefly with GREEN LANTERNS, as well as GREEN ARROW I and the BLACK CANARY. Recruited by SILENT SQUAD associate Simon LeGrove to join his Captain of Industry, a task force for the Institute of Meta-Human Studies, Jordan changed his name to Maser. Later, the villain Catalyst kidnapped Maser and turned him over to the terrorist Kobra, but the young hero was saved by the JUSTICE SOCIETY OF AMERICA. Hal later returned to the uniform and codename of Air Wave and is believed to have perished during the Infinite Crisis. PJ

ALLEN, IRIS

FIRST APPEARANCE: SHOWCASE #4 (October 1956)

STATUS: Hero **REAL NAME:** Iris Ann Russell West Allen

OCCUPATION: Journalist **BASE:** City

HEIGHT: 5'6" **WEIGHT:** 130 lbs. **EYES:** Brown **HAIR:** Brown

SPECIAL POWERS/ABILITIES: Highly resourceful with a keen intellect; no meta-human abilities.

After graduating from Columbia University, Iris West won a job at *Picture News*. There she met forensics scientist Barry Allen, they became engaged, and everything in Iris's life turned upside down. Allen was in an accident that turned him into the second Flash, but Iris only found this out when she heard Barry talking in his sleep. When Barry finally told her his secret, he explained that he had wanted because he was running tests to see if his biological changes would affect their ability to have children. Happily, all was well.

Further shocks were in store for Iris. It eventually transpired that she was adopted! She realized this when she found a pendant containing a recording from her true parents. Their names were Eric and Fran Russell, and they lived in the fear-ridden 30th century. Iris had been sent back in time for her own safety! Meanwhile, a mad scientist called Professor Zoom had become obsessed with Iris. When she rejected his advances at a costume party, Zoom

killed her. But at that very instant, the Russells used an experimental device to transport Iris's spirit to the 30th century. Later, when Barry killed Zoom and was tried for murder, Iris returned to the 20th century, disguised herself as a juror, and saw to it that he was acquitted. Reunited, Barry accompanied Iris to the 30th century. Iris gave birth to twins shortly after Barry was killed during the apocalyptic battle known as the Crisis (see *Great Battles*, pp. 362-3). Iris later returned to the 20th century to teach her grandson Bart how to use his inherited gift of speed. Once again living in Keystone City, she used her knowledge of future events to try and prevent the death of Bart Allen. She failed, and her grandson perished at the hands of the Rogues. RG

IRIS AND THE FLASH

Iris introduces her nephew Wally West to her boyfriend, Barry Allen.

CLOSE ESCAPE: Professor Zoom, the Reverse Flash, shoots and kills Iris after she rejects his advances for the last time. Unbeknownst to all, her soul is plucked into the future an instant before death.

ALIAS THE SPIDER

FIRST APPEARANCE: CRACK COMICS #1 (May 1940)

STATUS: Hero **REAL NAME:** Tom Ludlow/Halloway

OCCUPATION: Adventurer **BASE:** Keystone City

HEIGHT: 6'1" **WEIGHT:** 195 lbs. **EYES:** Brown **HAIR:** Brown

SPECIAL POWERS/ABILITIES: Superb archer and athlete, sometimes wore a bulletproof costume.

During the 1940s, Tom Halloway decided to fight crime as the costumed champion the Spider. Using a bow and arrow and traveling in a custom Black Widow car (driven by his valet and confidant Chuck), the Spider was a vigilante who killed many of his criminal opponents. Though known as a hero, the Spider clearly walked the edge of cold villainy. At the height of World War II, the Spider joined Uncle Sam's Freedom Fighters. He later worked with the SEVEN SOLDIERS OF VICTORY, claiming that he could help them defeat the NEREA MAN. In reality, the Spider had set them all up for a fall.

With his trap sprung and the Seven Soldiers dispersed into the timestream, the Spider became the new protector of Keystone City. The Spider died at the hands of the Shade, though his son Lucas Ludlow-Dalt has since assumed the Spider's mantle. Thomas Ludlow Dalt has become the third Spider, and as "I, Spyder" helped fight the Screamers. DW

ALLIANCE, THE

FIRST APPEARANCE: JLA/HAIVEN: THE ARRIVAL #1 (January 2002)

STATUS: Hero team **BASE:** The Haven, Coast City, California

Valadin: Military hero; manipulates energy and projects power blasts.

Siv: Engineer in control of tiny nanotech machines.

The Alliance are a contingent of freedom-fighting aliens from the planet Compeltia, dedicated to ridding their world of Anathema, a ruthless biogeneticist who transformed nearly every inhabitant of Compeltia into superhuman beings. Once a Compeltian was transformed, Anathema would have complete dominion over the individual and her newly-created warriors quickly swept over the planet, placing it under her near-total control. Over two million Compeltians resisted Anathema's control, however, and were placed in a penal colony called "The Haven." Soon after, Valadin, a respected military leader, and his brother Anson, forged an Alliance of rebels, and turned Haven into a traveling space city. The Haven escaped Compeltia and headed for the Milky Way galaxy. The Alliance came out of warp too close to Earth, and crash-landed in California, creating a crater across much of the state and killing thousands. With the help of the JUSTICE LEAGUE OF AMERICA, the Compeltians were able to salvage the Haven and forge a new Alliance under Valadin's command. One member, the Chancellor Mavara Lin, betrayed the Alliance, allowing Anathema to take over the Haven. Siv, used the despot's DNA against her, enabling him to destroy her. The Haven remained in California, and through negotiator Nicole Srin, appointed by then-President Lex Luthor (see LUTHOR, LEX), became a legally recognized city of the U.S. PJ

BETRAYAL: Mavara Lin, the former chancellor of the Haven, betrayed her teammates while under the duress of Anathema, even threatening the life of then-President Lex Luthor.

KING OF THE SEVEN SEAS

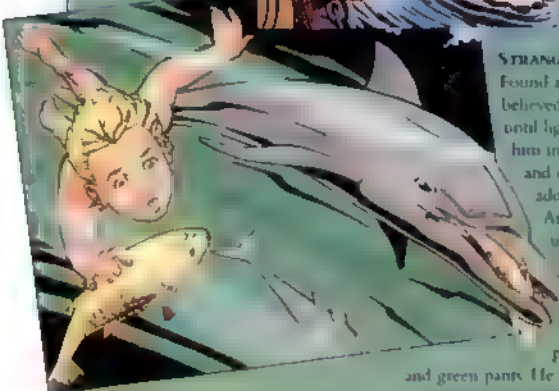

THOSE WHO UNDERESTIMATE AQUAMAN do so at their peril. This hot-headed monarch commands a kingdom that covers three-quarters of the Earth's surface and extends from the water crests to the bottom of the Mariana Trench. Although he is, at present, a king in exile, his royal bearing is plain for all to see. Like many legendary kings, Aquaman's royal birthright was obscured by his upbringing as a commoner. The son of Queen Atlanna and a demigod, the spirit of Atlan, Orin was born with blond hair and the ability to communicate with sea life. These qualities sentenced the child to death by exposure on Meru Reef north of Ataria. Many believed they were signs of the curse of Kordax, a legendary monster

STRANGER IN A STRANGE LAND

Found and raised by the dolphin Poni, Oni believed himself to be a misshapen dolphin until lighthouse-keeper Arthur Curry took him in. Absorbing some of the language and culture of the surface world from his adoptive parent, the boy took the name Arthur Curry and traveled north. He unknowingly fathered a child with an Inuit woman, Koko, then became the prisoner of Atlantean soldiers. Arthur befriended a fellow prisoner, Vulko, and escaped, wearing his prisoner's garb of orange-sealed shirt and pants. He soon stumbled into a wave-top battle with the Atlantean king, King Nuidia.

The Flash convinced Arthur to return with him to the U.S. where, he noted, he had a "A. . . ."

DEATH IN THE FAMILY

PUNGED INTO THE DEPTHS

By [illegible] and [illegible]

IN THE 1960s, when the comic book industry was still a relatively new medium, the idea of a superhero who could breathe underwater and talk to fish was a novelty. But as the years went by, the character of Aquaman evolved from a simple fish-talking hero into a more complex figure. In the early 1970s, he was portrayed as a somewhat dim-witted character, but over time, he became a more powerful and intelligent hero. This evolution was reflected in his costume, which became more sleek and modern. The character's popularity grew, and he became a key member of the Justice League of America. His storylines often revolved around his dual life as a prince of Atlantis and a hero on the surface. The character's unique abilities and his role as a bridge between the human and aquatic worlds made him a fan favorite. His storylines were often filled with action and adventure, and he was always ready to save the day. The character's enduring popularity is a testament to his unique abilities and his role as a hero who can connect with a wide range of readers.

ALTERNATE EARTHS

Once there were an infinite number of universes — until a being called the Anti-Monitor annihilated all except five, and the surviving heroes collapsed those five into one. Yet this single, merged universe would not hold. The Multiverse burst forth again when Alexander Luthor, brilliant scientist from a reality the Anti-Monitor had wiped out, initiated the Infinite Crisis by constructing a tuning fork that replicated the existing universe fifty-one times. At first, these 52 parallel universes looked identical, until the Venusian worm Mister Mind retroactively altered their histories during a rampage through space-time.

The 52 realities are separated from one another by Source Walls that bound each universe; behind the Source Walls lies the Bleed, which allows certain individuals to make passage from one universe to the next. Intermingling between realities is discouraged by the Monitors, a corps of 52 watchers (one from each plane) who strive to maintain the purity of the Multiverse. The anti-matter universes, home to the Sinestro Corps and the Weaponers of Qward, exists on a separate plane than any of the 52 positive-matter realities.

Earth is a focal point of each universe, and "New Earth" — the first world among the 52 — is the Multiverse's cornerstone. The destruction of New Earth would trigger a chain reaction that would destroy the Multiverse, leaving only the anti-matter universe in its wake.

The 52 parallel universes are named after, and most easily distinguished by, the characteristics of the planet Earth in each.

New Earth

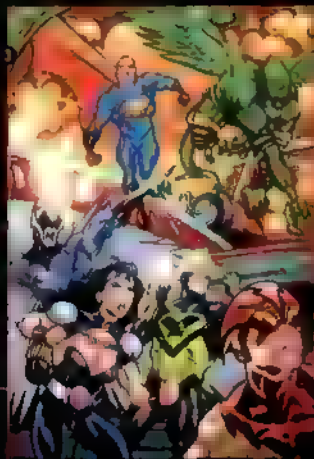

The foundation of the Multiverse, New Earth is home to the primary versions of all super heroes and similar comic champions. All other universes are altered copies of New Earth's reality.

Earth-2

On Earth-2, a slightly altered version of the Justice Society of America fought the Axis powers in World War II. In later decades, their descendants have taken up unique heroic identities.

Earth-3

On this evil mirror image of New Earth, the Crime Society of Ultraman, Orkman, Superwoman, Power Ring, and Johnny Quick rule with an iron hand, while exotic do-gooders like the Jokerine (and the Joker's Daughter) fight for freedom.

Earth-4

Alternate versions of the Question, Blue Beetle, Nightshade, Captain Atom, Judomaster, and the Peacemaker inhabit Earth-4, where they work to find a role for super heroes in a notorious shadowy world.

Earth-5

A sunny and colorful reality, Earth-5 is home to upbeat versions of Captain Marvel and the Captain Marvel family.

Earth-6

New Earth's heroes do not have any analogues on Earth-6, where a super-powered ruling class has taken root in the form of Lord Harko and the Esmerangs.

Earth-10

On Earth-10, Adolph Hitler achieved victory in World War II and conquered the planet. Alternate versions of Uncle Sam and the Freedom Fighters plot to end his reign.

Earth-12

Several decades into the future, new Batman Terry McGinnis has taken the mantle from Bruce Wayne to fight old threats in a high-tech Gotham City.

Earth-13

The highly-evolved super heroes of Earth-13 have eliminated nearly all crime. Their members include Jason Todd as Batman, Jessica Palmer as the Atom, Donna Troy as Wonder Woman, and Zed and his son Christopher Kent as dual Supermen. The world was recently destroyed by Superman-Prime.

Earth-17

Here, the Atomic Knights struggle to save a savage planet in the wake of an apocalyptic Cross Disaster.

Earth-22

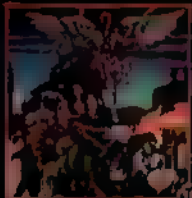

This universe, sometimes called the Kingdom Come reality and set several decades in the future, is distinguished by a mirrored Earth where heroes fight heroes.

Earth-34

Earth-34, also called the Amazonia reality, is where Wonder Woman first emerged in 19th century England and fought a male-dominated commonwealth in which Jack the Ripper ruled as king.

Earth-43

Gotham is a vampire in this dark universe that works with the supernatural.

Earth-18

On Earth-18, analogues of the Justice League heroes keep the peace on the OM World's frontier.

Earth-26

A cartoonish reality populated by anthropomorphic animals, Earth-26 counts Captain Carnie and his Zoo Crew among its bawdy champions.

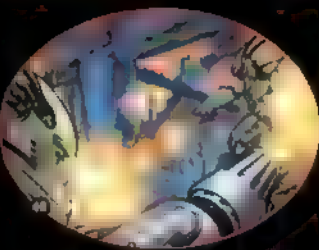

Earth-30

Also known as the Red Sun reality, Earth-30 is where baby Kal-El landed in Earth's Soviet Union during the Cold War of the 1920s, later using his abilities as a Soviet Superman to help Abraham Khrushchev dominate the globe.

Earth-51

In this reality, Earth's heroes are led by a ygg-governed, all-American Superman and a violent, aging Batman. Their differing methods define a world riddled with guilt and oppression.

Earth-60

Earth, a desecrated tear in this reality, is used as a neutral warring ground for Martians, Venudians, and other species inhabiting the solar system. The cross-breed survivors of Earth have evolved to become the Powermonsters—the baling machines in the service of the Monitors.

Earth-19

In the dying decades of the 19th century, a Victorian-era Batman fights crime in a Gotham City lit by gaslight.

Earth-21

Also known as the New Frontier reality, Earth-21 is where the planet's core heroes became famous during the 1980s and '90s.

Earth-50

This universe harbors a different lineup of heroes than those on New Earth, with teams including W66C.A.T.S., the Authority, and Gen 13.

STATUS: V-Live **REAL NAME:** Unknown

HEIGHT: 6'6" **WEIGHT:** 170 lbs.

EYES: Brown **HAIR:** Brown

SPECIAL POWERS/ABILITIES: Batman is a highly skilled and experienced fighter, with a high level of intelligence and a high level of physical fitness. He is also a highly skilled and experienced investigator, with a high level of intelligence and a high level of physical fitness.

Batman will forever be remembered as the man who broke the Bat Man than three decades ago. Batman's father received a life sentence from the Santa Prison government for his role in a failed revolution. He fled the country, but Santa Prison later demanded that his son take his place. The child that would become Batman was raised inside Santa Prison (mostly in a pit called the Crivello Caves). Batman killed dozens of inmates and engineered a jailbreak when experiments with the drug Venom gave him monstrous strength.

Winding up in Gotham City, Batman encountered BATMAN by beating all the villains from Arkham Asylum. He then crippled the Dark Knight by stopping his spine. Jean Paul Valley (AZARATH) doused the Batman gods and beat Batman into a coma.

Batman returned to a life of wickedness, shaking off his dependence on Venom and allying himself with R.I.V. AL GOND. After a falling-out with the immortal would-be conqueror, he subverted R.I.V. al GOND's network of life-consuming Lazarus Pits. After beating his father KING SHAR, Batman killed JUNGMASTER during the Infinite Crisis, ending a brief period of semi-heroism. He has since led a revolution in Santa Prison and joined the SILENT SQUAD, winding up on a prison planet alongside dozens of other villains. DW

CRIMINAL MINDS: In prison, Batman found solace in books and a teddy bear given to him by a Catholic missionary.

REMEMBER: Now a blank slate, Batman must decide whether he will be an enemy or an ally in the Batman's future.

BATGIRL

FIRST APPEARANCE: BATMAN: ETERNAL #200

AGE: 18 REAL NAME: Barbara Gordon

OCCUPATION: Adventurer, Batgirl

HEIGHT: 5'6" WEIGHT: 110 lbs. EYES: Green HAIR: Black

SPECIAL POWERS/ABILITIES: Her father's greatest creation is the Batgirl costume, which makes her invulnerable to most attacks.

HER WEAKNESS: Despite her invulnerability, she is not invincible.

BARBARA CAIN IS THE THIRD YOUNG WOMAN TO assume the mantle of Batgirl. A young orphan adopted by the master assassin David Cain (see CAIN, DAVID) to become his greatest pupil and heir, Cassandra was his most potent student, but was ultimately uninterested in extending his legacy. Seemingly unable to speak, the young Cassandra "spoke" with her body and learned how to "read" the body language of those around her. Cain trained her in the world's deadliest martial arts, and the young Cassandra soon made her first kill, a Mexican crime kingpin. Sicken by the act, the mute girl fled Cain's abuse and evil influence and began to travel the world, searching for a new home and a new way of life.

THE NEW BATGIRL

Cassandra found her way to Gotham City just before it was devastated by an earthquake and consumed off the east of the U.S. During that time, she was recruited by mysterious computer hacker **OSCAR** to act as a messenger in the city, now called **No Man's Land**. Years earlier, **Oscar** (Barbara Gordon), daughter of Police Commissioner **James Gordon** (see GORDON, JAMES W.), had been the first Batgirl, until she was shot and crippled by the Joker. When Cain arrived in Gotham on a mission to assassinate Gordon, Cassandra saved the commissioner from her father's bullet. Impressed by Cassandra's skill and bravery, **BATMAN** took her under his wing and made her the new Batgirl. Still without a voice, Cassandra quickly took to her new role, helping to avenge the killing of the gangster all those years ago. Soon after, Batgirl used a psychic named **Jeffrey**, who was on the run from the mob. Jeffrey used his powers to murder Batgirl's brain, giving her the power of speech, but stripping from her many of her martial arts skills. Batgirl began retraining and taught out **LARRY BIRD**, then the world's greatest martial artist, for a single lesson she hoped would help her retrain her skills. In a second confrontation with **Shiva**, Batgirl left her opponent for dead. She then assumed leadership of the **League of Assassins** and joined other villains within the **Throne**. But Batgirl has since redeemed herself by becoming a member of **Batman's** latest team of **Outlaws**. **BT**

COSPLAY Body a child, heart a warrior, Batgirl is everything from the inside.

BODY LANGUAGE No ordinary criminal or supervillain can hope to hold their own against the martial-arts prowess of Batgirl, who was trained to communicate with her body, not with words.

BATMAN

THE SON OF BATMAN

While fighting the League of Assassins at the art gallery, Batman lost his eyesight. He was rescued by Talia al Ghul. A member of the League of Assassins, Talia had a child with Batman. Though he believed she had miscarried, she had borne a son named Damian. Raised according to the deadly teachings of the League of Assassins,

Damian had grown into a petulant, spoiled brat.

After arriving at Wayne Manor and the House of El, Damian nearly killed his "rival," Robin, and fashioned his own Robin uniform from Jason Todd's memorial costume. Batman tried to bring

him back to the League of Assassins, but he was too late. Damian had already been taken to the League's secret lair.

AFTER BREAKING After breaking out of the League's lair, Damian was taken to the House of El. He was then taken to the League's secret lair.

IN THE CLOVES AT

After the League of Assassins was defeated, Damian was taken to the House of El. He was then taken to the League's secret lair.

THE RESURRECTION OF RA'S AL GHUL

Damian didn't stay underground for long. His late grandfather, Ra's al Ghul, cheated death yet again and reappeared as a shambling, decaying corpse. Ra's hoped to transfer his soul into Damian's body, and Batman allied with Talia to ensure this fate did not befall their son. In the sacred city of Nanda Parbat, Batman battled Ra's al Ghul. The death, with Damian, Robin, and the League of Assassins. A tied holding their own against the League of Assassins. Ultimately, the monks of

Nanda Parbat forced both sides to flee the battlefield, leaving Ra's a malignant threat and Damian back under the care of his mother. Among Batman's recent moves is the creation of an all new team of Outsiders. DW

ONCE SCIENTIST FRANK ON DIMEZ COLE, VIL DOR attempted to overthrow his technologically advanced world's Supreme Authority. Dor paid for his rebellion by being disintegrated. Yet somehow, his computer-like mind remained intact, traveling thousands of light years to Earth. Using his vast telepathic and psychokinetic abilities, Dor possessed the body of a sidewalk mentalist named Milton Fine, to become the power-hungry Brainiac. When Fine's body proved too frail to contain Brainiac's power consciousness, he sought more suitable hosts, each time coming into opposition with SUPERMAN.

REBORN AND REBORN

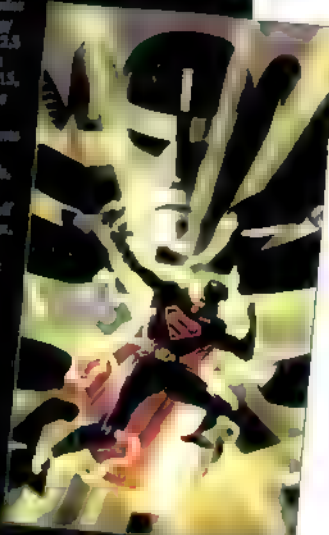

In the course of his attempts to conquer Earth, Brainiac has upgraded himself many times, even inhabiting the body of Superman's nemesis DOOMSDAY. Brainiac downloaded his evolved alien psyche into a Kryptonian android shell to become Brainiac 2.3 and threaten Earth with his Omega Spears. These weapons generated an energy web that could shatter the world. After Superman thwarted this scheme, Brainiac 2.3 attempted to harness his personal power by linking all the world's computers, but instead created a portal that enabled his master, all-powerful future self, Brainiac 13, to enter the 21st century. It took the combined efforts of Brainiac 2.3, Lex Luthor (or LEXXON, Lex), and Superman to stop the computer tyrant. While the B13 persona was trapped in a Kryptonian warship, Brainiac's modern-day incarnation was trapped within the infant body of Lex's daughter, Lena. To

save Metropolis from both present and future androids, Luthor was forced to bargain away his own daughter. As Lex B13 did help flash away off the threat of the cosmic conqueror Lexxon, Superman helped safeguard the android to the dawn of creation. Then, Brainiac 13's energies, coupled with the

"Big Bang" itself, caused two vast explosions that scattered Brainiac's consciousness over 68 million light years of space and time. Brainiac came back even from this, using a future descendant, Brainiac 8 (Brainiac) in a plot to destroy the Overmole. RG

POOR Brainiac's first meeting with the Man of Steel.

BRINIAC The B13 incarnation nearly destroyed Superman and overtook the entire city of Metropolis.

BRINIAC Brainiac 2.3, now host with Lex Luthor's daughter, poses in a gothic gown.

MILTON FINE Over the years, Brainiac has been constantly upgraded. The shell-shaped vessel (above) attempted an attack on the Earth. It took Superman and other heroes to repel the invader and send panic to the skies.

Once more Brainiac in his Cohen form of Vil Dor, before he was called for attempting to overthrow his homeworld.

More Killer Moth's attempts at a big-time kidnapping of billionaire Bruce Wayne were thwarted by Barbara Gordon (Nightwing) on her very first night of crime fighting! The depressed Drury Walker, dressed in a costume with details before meeting and teaming up with another budding vigilante, later the Purple!

Drury Walker the man was half man, half machine. As Killer Moth, he offered his services as paid protector to Gotham's gangsters. Despite an arsenal of ingenious weaponry, including his signature octopus gun, the colorful Killer Moth was bound by Batman at every turn, leaving his clients backstabbed and incarcerated. Then Barbara Gordon, dressed for a costume party as Nightwing, defeated the Moth, earning Walker further ridicule. Finally, he made a deal with a devil—the computer Noman—who gave Walker his heart's desire. What Walker wanted most was to be feared, but what he received in exchange for his soul was metamorphosis into a real Killer Moth...the man-eating Chameleon!

Chameleon has reportedly turned up in the Gotham area seeking assistance to survive and usually crossing paths with Robin. During the Infinite Crisis, Superboy-Prime tore Chameleon in half. **BO**

Now The man-eating Chameleon continues to menace. What's worse, he may be reproducing!

Darkseid is the greatest threat to life in the DC Universe, representing all that is vile and corrupt. In the wake of the old gods dying, a race of New Gods were born, split between two planets, bright New Genesis and smoldering Apokolips, who were continually at war with each other. On Apokolips, Queen Hecate and her own son Ursa plotted and schemed against each other, one determined to retain power, the other seeking it. Ursa's drive for control resulted in his brother Desha's death. Ursa then evolved into the creature known as Darkseid.

Ursa Darkseid's nephew, no-one and very proud as god to be a means to his own ends.

THE WAR OF HEAVEN

Against Hecate's wishes, Darkseid married the common Suli, and they had a son named KAMBA. Suli was murdered, at Hecate's command by the sorcerer DONALD and Hecate then ordered her son to marry TIANA, with whom he had a son, ORION. To end the war between New Genesis and Apokolips, a peace treaty was signed known as "The Pact," wherein the ruling gods of Apokolips and New Genesis gave one another their sons to be raised by the other. The New Genesis ruler HIGHMATTER raised Orion as his own. Darkseid had SON FIVE (MAYN MIMICS) raised by GRANNY GOODNESS at her brutal orphanage.

Martin philosophy led Darkseid to conceptualize the "Anti-Life Equation" as the object of his quest for power, and agents of Apokolips attacked Mars. Later, Darkseid turned his sights on Earth. Despite frequent setbacks, Darkseid continued his conquest of the universe, although he was frequently being opposed by his own son, Orion.

Darkseid failed to recruit SUPERMAN into his PARADOX PLAN, and reflected the wrath of Superman who imprisoned him in the Source Wall for a time. The experience temporarily drained Darkseid of his Omega Effect, but despite the return of his abilities he remained unable to prevent the death of the New Gods and the end of the Fourth World. **RG**

Omega Effect The Omega Effect has no known limitations and can destroy any organic being.

Eye Flame During the Imperial War, Darkseid manipulated events to gain any advantage possible.

TRAMP ARTIST BOSTON BRAND, the leading high wire act for the Hills Brothers Circus, was murdered by an assassin's bullet. Rescued from the Afterworld by Rama Kushna, Goddess of Balance for the many kindnesses he had performed during his life, Brand became the ghoulish spirit Deadman. He began to hunt for his assassin, knowing only that the man wore a hook for a hand. When Deadman learned that a villain called Hook was a member of the international Triad or Assassins, he was sure that it was Hook who had fired the fatal bullet. Along the way Brand continued to interact in people's lives, doing good deeds in his distinctive style.

Director Berman is the producer of a riveting genetic experiment by the brilliant Doctor Benjamin Low. Berman's monster gave birth to a mutated child whose skin and organs were invulnerable and, as an adult, Frank developed an acid-tongue. Master Berman, as he came to be called, and several of Low's experimental subjects became the HULAN, a race of misbegotten super-beasts. The Hellfire came to blows several times with INFINITY, INC.

Minor Steven returned, and even joined Infinity, Inc. for a brief time, before he accidentally killed the original Star-Spangled Kid. Plagued by guilt, Steven disappeared but resurfaced years later as a major player in the DCA Working for Amanda Waller (see WALLER, AMANDA). Bruce locates the DCA's director. 72

COMMENT:
The first that will become Domsday is destined to be Krypton's last enemy.

Some 250,000 years ago, an alien scientist named Boreas arrived on Krypton and commenced cloning experiments to create the perfect warrior. Within decades, a cloned baby proved able to survive an harsh Krypton and withstand total pressures. Turning on its creator, the creature killed Boreas before escaping Krypton. The monster moved to other worlds, where it killed without mercy. Through the years, members of the GREEN LANTERN CORPS opposed this being, known as Domsday until it threatened Oa, home to the GUARDIANS OF THE UNIVERSE. Their champion Radlar defeated Domsday and he was detained, wrapped in a protective garment, placed in a container, and ejected into space. The container crashed into the Earth, burying itself deep underground. Over the millennia Domsday struggled to free himself, pounding his way to the surface until he emerged in North America. He beat back the JUSTICE LEAGUE OF AMERICA before confronting SUPERMAN in Metropolis. The two fought an epic battle that left scars on the city and resulted in the death of the Man of Steel.

Since then, Domsday has remained unstoppable, although he has since become a pawn for the likes of BRAMMUS and even Lex Luthor (see LEX LUTHOR, LEX). **RO**

SUPERMAN SHAMBOLES Domsday's superhuman strength allows him to overpower Superman's great gifts.

MONSTER MADNESS A towering figure of destruction, this new generation of Domsday adapts to new perils and new environments, making him the perfect weapon.

BAMF CLASH! The Fatal Five team battled the Legion.

THE MEMBERS OF THE FATAL FIVE comprise some of the worst criminals of the late 31st century. Together, they are an almost unstoppable force for mayhem and murder. Their violent tendencies landed them behind bars long before anyone conceived the idea of a Fatal Five super-team. **THAROL** was a half-cyborg whose body had been reconstructed following a terrible accident; his electronically-amplified brain made him a brilliant strategist and leader. **EMPERESS'** true name was Saryn of Venger, and she delighted in destruction and pain. **MONO** was a mutant whose glowing right hand could disintegrate anything it touched; he used this power to destroy his polluted homeworld of Angur. **THE PERSUADER** carried an atomic ax that could alter through anything and shared his psychic link with the weapon. **VILLAIN** was an invulnerable colossus of staggering strength.

THE WARRAZER

In our version of reality, the Fatal Five came into being when Earth's President Chu ordered their formation in order to spark a war. The Fatal Five soon came into conflict with the Legionnaires, triggering a fierce battle that ended in victory thanks to the involvement of the Legion Rescue Squad. The Legion executed a sting operation to prove President Chu's complicity in the affair.

The U.S. Council removed Chu from office and installed R.J. Brande (or **BRANDE**, R.J.) as the new president in her stead. Later, the Empress bonded to the all-powerful artifact known as the Emerald Eye of Eternity, becoming the Emerald Empress. She forced the others and led the Fatal Five into other clashes with the Legion, including a lightning of the Legion Crusader and a battle with our Legionnaire **THAROL**.

As an odd side note on Fatal Five history, the **WARRAZER** is generated head-light images of the team as seen through the lens of the Emerald Eye of Eternity.

Another version of the Fatal Five time-traveled to the modern era from the 31st century.

Disturbing both **BATMAN** and the new **BLIND BATTLE** in their pursuit of a valuable relic. **DW**

WARRAZER
The powerhouse of the Fatal Five is a complex-minded giant largely under the control of Tharol. His hole of mental lightning are powerful enough to fry **KRYPTONIAN** and **DEMONIA**.

FIRST APPEARANCE: J.A. #72 (Nov. 1984)

STARLIN: MARY. REAL NAME: Guy Gardner

OCCUPATION: None. Base: None

HEIGHT: 5'10". WEIGHT: 150 lbs. EYES: Blue. HAIR: Red

SPECIAL POWERS/ABILITIES: Super strength, invulnerability, flight, and other abilities. He is a Green Lantern.

As a child, Gardner swapped his idyllic home life by escaping into the comic book adventures of GREEN LANTERN. He played football in the University of Michigan and injury ended a promising career. He then worked as a teacher and social worker. When the dying Alura Zee Green Lantern of Sector 2814 asked his powers ring to find a replacement, it identified Guy Gardner and Hal Jordan—but pushed Jordan back, for he was closer. This missed opportunity haunted Gardner. Gardner spent months in a coma after an accident in the Phantom Zone, but a faction of the Guardians of the Universe gave him a new ring and purpose prior to the Crisis on Infinite Earths. Gardner joined the Justice League of America, often clashing with Hal Jordan, and began a romance with Irisa. He is a Green Lantern.

Gardner discovered that his body contained Vandalia, a DNA allowing him to morph his form into weapons. He adventured in wartime, and opened the Warrior's bar, which became a favorite watering hole for his kind super heroes. The destruction of the bar—and his body's rejection of its Vandalian DNA—suffered as a new era for Guy Gardner. He returned to the Green Lantern Corps, fighting Vandalia alongside Stewart Kirby Rafter, and a resurrected Hal Jordan. The Guardians named Gardner one of the trainers for the Corps recruits and later appointed him to the Lantern House Guard. He has distinguished himself in the covert ops team known as the "Green Lantern Corps."

He is a first-line commander during the Sinestro Corps War. DW

THE ONE, TRUE GREEN LANTERN Guy Gardner has often boasted that he is superior to all other members of the Green Lantern Corps. His ring glows with wild energy from his overabundance of willpower.

SPECIAL POWERS ABILITY *one two three four five six seven eight nine ten*

ONCE THEY WERE a corps 3,600 strong, wearing the most powerful weapons ever devised on their fingers. The GREEN LANTERN CORPS acted as an intergalactic police force, doing the bidding of the GUARDIANS OF THE UNIVERSE. Each Green Lantern possessed a power ring that could create hard light projections by drawing energy from the Central Power Battery on the Guardians' homeworld of Oa, however the rings were ineffective against anything yellow. The Green Lantern Corps suffered a fatal blow at the hands of Hal Jordan, but Kyle Rayner may be the best hope for restoring this ancient force of justice and order.

Recent report of ...

After his death, the University of Chicago and the University of California at Berkeley conducted a series of experiments. A Soviet scientist was able to make a corpse jump using a mystical ring worked fine against yellow objects but was powerless against wood. Scott Peiper, a U.S. Army sergeant in the Second of World War II. After many decades he discovered that his body had been infused with the energy of the Starheart and that he himself required a ring. Scott briefly took the identity of Sentre, before reclaiming the Starheart.

Chen's cocky way by Ahn Sun in favor of Ha Joon in the end. But he was not a simple character. He was a very cunning person. His different cocky stance, marked by his constant attempt to reverse the fate of his cockiness, is a good example of a cocky character. He was a bit of a weakling, but he wore a yellow power ring, and he wore a white shirt with a yellow power ring, and he wore a white shirt when he discovered his home. He was a cocky, but he was a cocky warrior engineered by the cocky.

After Kyle Rayner worked to restore the Green Lantern Corps, his actions seemed to bring about the twilight of his career. After returning from outer space, Kyle learned that his girlfriend, Ivy, had moved on and that the H.A. was doing well without him. Originally the Green Lantern's backup, Green Lantern, John Stewart has become one of the greatest fighting heroes despite a career filled with unimaginable pain. Stewart accidentally destroyed the entire planet Krypton then suffered when his wife Karna (who died at the hands of STAR Sapphire) earned the mantle of peace as the caretaker of a pain-torn Kryptonian world on Oa, and later became a leader of the DARKSTARs, an intergalactic peace-keeping force that is a rival to the Green Lantern Corps. Injuries suffered in the line of duty left him paralyzed from the waist down, so he briefly worked as an amputee until Hal Jordan, as Parallax, restored his legs. Now, John Stewart works with the world's most powerful super heroes as a member of the JLA and has helped quell interplanetary threats including the invasion of Earth by the Darkstars.

BACK IN UNIFORM I feel fortunate to have been able to serve my country.

THE ROLES OF HAL JORDAN

Hal Jordan's personality came to an end with the revelation of Parallax's true nature. Parallax had existed since the beginning of time as the negative embodiment of the Light of the Green Lantern. He lived in Central City's Central Power Battery where he became known as the Yellow Lantern. He had created a society of minions and had used his power to conquer Earth. When we were introduced to him, we

The intimate showdown with Parallax united *Crisis* Exes into John Stewart, Guy Gardner, Kyle Rayner, and Jordan himself, as they jointly restore the Green Lantern Corps. The movie ends with a twist within the *Crisis* power battery: "Goodbye, Exes," says Jordan. But with Parallax's powers escaped, the Exes have no choice but to return by means of a "re-creation."

After the war, Stark continued to work for the government, but his loyalty was always questionable. He was a member of the Strategic Scientific Reserve, a secret organization of scientists and engineers who were supposed to be working on the development of new weapons for the military. Stark's involvement in the project was controversial, and he was eventually discharged. He then went on to work for the government again, but this time as a consultant. He was involved in the development of the Iron Man armor, which was designed to protect him from the dangers of war. The armor was a masterpiece of engineering, and it made Stark invulnerable to bullets and shrapnel. He used the armor to fight the enemies of his country, and he became a hero. He was the Iron Man, the man who saved the world.

After carrying the meteor back to his hideout, Hammond kidnapped four prominent scientists and exposed them to the meteor, which changed them into four-men whose heightened mental abilities were balanced by their weakened willpower. Hammond forced the scientists to invent amazing items, for which he himself took the credit. This brought Hammond to the attention of the sorcerer, who had been searching for the missing scientists.

ALIEN RACES AND WORLDS

IN THE LAST FEW DECADES humankind has learned that Earth is by no means alone in the universe: it is a planetary home to sentient life. From the galactic rim of the Milky Way to the furthest reaches of the known universe, advanced aliens abound. However, not all of these peoples are peaceful. Remarkably, some even resemble *Homo sapiens*, albeit with markedly different internal physiologies. A few exhibit superpowers, either a benefit of the atmospheres of their native worlds, or as a result of exposure to lower gravities, the rays of a different colored sun, or any number of environmental factors. The following are the most notable alien races that have had more than close encounters with Earth, either as strange visitors from other planets or invaders from beyond.

Gold-blooded and highly conservative, the Poles were originally alien to the world evolved to higher intelligence by Maldivian evolution. The Maldivians left their world to become the GUARDIANS OF THE UNIVERSE and these Guardians, who called themselves Poles, continued their evolutionary progress. Eventually the Poles moved into space to find their species. The Guardians, conversed with other nations, encouraged the Poles, to continue their quest for knowledge.

The Nazis, however, took scientific experimentation to the extreme, often selling their cruel services to other alien cultures. Pless research under the banner of the Glueck group has been shown by Kertinoff and Kornadt's stark black papers as TRAGEDY AND BLOODSHED. The Nazis added their scientific cruelty to the Dominant-evil theories of Bush, and engaged in breeding experiments that crossed inmates with the H-Han Nihil to make young superbeings being united as a man or Tiger TIGER.

IMPERIUM

FIRST APPEARANCE: IMPERIAL #1 (1971) **CREATED BY:** BOB FOSTER
STATUS: Merged into the **REAL NAME:** Unknown
OCCUPATION: Mercenary, soldier **BASE:** Mobile
HEIGHT: 6'0" **WEIGHT:** 200 lbs. **EYES:** Blue **HAIR:** Red
SPECIAL POWERS/ABILITIES: Superhuman strength, invulnerability, flight, heat vision, x-ray vision, and the ability to absorb energy from other beings.

The omnipotent Imperium may be even older than creation itself. His hunger for cosmic power led him to sweep toward Earth—the lynchpin that holds the universe together—leaving scars of dead worlds in his wake. SUPERMAN and MONGUL defeated an advance Imperium-Probe, but Imperium's main army proved to be far more than the Man of Steel could handle alone.

Demons of alien species united behind Earth's defenses in the Imperium War (see Great Battles, pp. 362-3).

Commanded by the unholy alliance of DARKNESS of Apokolips and U.S. President Lee Lumber (see Lumber, later), Imperium-Probe killed thousands and city-sized "hollower" machines devastated Tophia, Kemon (and many other locations), in their attempts to drill through the planet to survive space-time and unleash a new Big Bang. Imperium himself sat in Earth's orbit like a small moon, witnessing the devastation with unrelenting eyes.

The war took a turn for the worse when QUEEN HIPPIRYTA, Earth's original Woman Woman, died in battle. Meanwhile, BRAINIAC 13 exploited the chaos to advance his own agenda. Superman and Luthor disrupted a risky plan: by using Apokoliptan technology and magic channeled through the Atlantean sorcerer THORPE, they could send both Imperium and Brainiac 13 back in time 14 billion years to the original Big Bang. Their Herculean efforts unsuccessfully succeeded.

In the aftermath of the terrible Imperium War, Superman temporarily incorporated a black background into his costume's "S" shield in honor of the film. Imperium has not returned to the present day, but his awesome threat remains—and always will. DW

Imperium does look to the dawn of creation. Imperium still easily claims the status of omni-god.

PLACEMAKER The latest
book by Lawrence Sanders

Prince Consort received his powers through a magic, ancient given to
 every queen. He defended his native Ireland in his constant identity of Jack
 O Lantern until summoned by the King to join the treaty of international
 business known as the GATTAGU GATTAGU. There he fell in love with trainman
 Chelwocman and with it hand when the United Nations withdrew funding
 from the Guardians in favor of Justice League International for Justice League
 or America. Looking for a new calling, he fell under the control of the evil
 Queen (see *see QUES* III H) and apparently died, replaced by the Queen (see
 duplicate Chelwocman rescued him from a dungeon in the Middle Eastern nation
 of Babilis, but he died soon afterward.

The impostor Jack O' Lantern II worked for the Queen. He and tried to take Prince Charles's place among the Global Guardians. Jack O' Lantern II shot and wounded media mogul Maxwell Lord (see LORD HAVOC) and accidentally killed Global Guardian LITTLE MERMAID before perishing in a bomb blast.

Jack O'Lantern hunked up the beanie, made lantern by his cousin Daniel. A former factory worker, Liam McHugh inherited O'Connell's lantern, which he called the "pumpkin of power," and soon joined the Leylines (see PRIMAL FURY). After his first few adventures he discovered that his body had somehow internalized the lantern's magical energies and he no longer needed to carry it with him (hunk Jack O'Lantern III was a founding member of the international pea-keeping corps, the INTERNATIONAL ULTRABEANIEE CAMEL DW

THE LIGHTENING SAGA

The Justice League of America (JLA) is a team of superheroes that first appeared in the comic book series *Justice League of America* in 1961. The team was created by writer Gardner Fox and artist Carmine Infantino. The original team consisted of Superman, Batman, Wonder Woman, Flash, Green Lantern, and Aquaman. Over the years, the team has evolved and grown, with many different members joining and leaving. The JLA has been featured in numerous comic book series, as well as in movies and television shows. The team is known for its powerful members and its ability to take on some of the most challenging threats in the DC Universe.

A NEW START

Months after the Infinite Crisis, the Justice League of America (JLA) made an attempt to reform the JLA with third-string heroes including Antares Bug, Bulleteer, Firehawk and Super Chief (who died in one of the team's only missions). But the true JLA took shape again when the "World War III" affair forged its backbone members Superman, Batman, and Wonder Woman. The three "core" members visited on the League's roster but simultaneous events helped pull together the worthy among the current heroic generation.

TARGET

The theft of Red Tornado's android body spurred Black Canary, Green Lantern Hal Jordan, and Red Arrow (Roy Harper formerly known as Arsenal) to aid in the hunt. Meanwhile, suspicious activity among Parasite, Doctor Fate, and other supervillains drew the attentions of Vibe, Black Lightning, and Hawkgirl. Together, the team uncovered an elaborate plot from cybernetic Professor Ivo, who had determined a way to control others using technological replicas of the "starro" probes familiar as the trademarks of the alien Starro computer. Ivo's mind puppets helped him piece together a composite android body that incorporated components from both Red Tornado and Antares. This virtually unstoppable composite was to house the consciousness of Solomon Grundy, the mountainous zombie.

THE OLD GUARD

When the Justice Society of America was first formed, it was a group of heroes who had been around for a long time. They were the original superheroes, the ones who had saved the world from the Nazis and the Japanese. They were the ones who had fought the war, and they were the ones who had won it.

But when the war ended, they were left with a lot of questions. What was their purpose now? What were they going to do? They were the original superheroes, the ones who had saved the world from the Nazis and the Japanese. They were the ones who had fought the war, and they were the ones who had won it.

RED ALERT The Justice Society struggles to make a name for itself. Its membership includes many legacy heroes now wearing the assumed identities of their late relatives.

REBIRTH

The Justice Society of America lay dormant following the death of the original members. It was only when the global threat of the new Black Adam known as World War III (ISA) found the original members (Alan Scott, Flash, Jay Garrick, and Wildcat) that they revived the alter-ego as an opportunity to rebuild the Justice Society. Taking a cue from Superman, Batman, and Wonder Woman, the Justice Society of America was reborn.

With the same family and heart, the surviving ISA founders selected the latest lineup. The intergenerational legacies of the heroic age passed themselves through the election of junior members including the new Green Lantern, son of the original Atom, Starman (Thom Kallor), the traveling inheritor of the Golden Age name, and the teen-age wind witch Cyclone (Mason Hunkel), grandchild of the original tornado Ma Hunkel. Others signed on to serve with a team that had welcomed them in the past, including Power Girl, Dr. Mid-Nite, Mister Terrific, Stargirl, and the new Obidian, Sandman, and the husband and wife team of Hourman and Liberty Belle, both of whom were in the original Justice Society.

THE LIGHTNING SAGA

The Justice Society of America was first formed in 1941, during the height of World War II. It was a group of heroes who had been around for a long time. They were the original superheroes, the ones who had saved the world from the Nazis and the Japanese. They were the ones who had fought the war, and they were the ones who had won it.

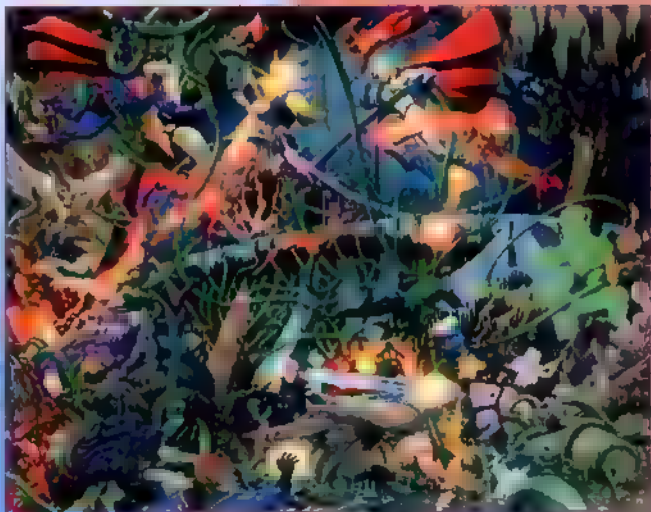

But when the war ended, they were left with a lot of questions. What was their purpose now? What were they going to do? They were the original superheroes, the ones who had saved the world from the Nazis and the Japanese. They were the ones who had fought the war, and they were the ones who had won it.

They were the original superheroes, the ones who had saved the world from the Nazis and the Japanese. They were the ones who had fought the war, and they were the ones who had won it.

ATLANTA STANDOFF Damage defied his nemesis Zoom when he was killed. He was just too good and not the hero inside himself.

TEAMS UNITED The Lightning Saga saw the JSA team up with the Justice League and the League of Super Heroes.

HEIGHT: 5'10" **WEIGHT:** 175 lbs. **EYES:** Blue **HAIR:** Red

SPECIAL POWERS/ABILITIES: Korra has the ability to use his supernatural strength and toughness telepathically with his sea creatures throughout Atlantis

Korra was just a man, but his worldwide influence and cold intellect made him the most dangerous man any superheroed thing. He was raised from infancy by the Calvo Cult of India after being stolen from his parents and separated from his beloved twin, Jason Barr. Korra believed himself to be the most important person in the world—the only one who could lead the Calvo Cult through the Kali Yuga, or time of great change.

At first, the U.S. government used the psychic bulk ship Jason Barr shared with his evil twin to gain advance warning of Korra's plans. Korra talked Barr, but the spirit of his twin haunted him.

Korra's actions were always spectacular. He manipulated hundreds of individuals to do his bidding, scouting the planet for objects of power, including the mystical Spirit of Daring. Korra also orchestrated the Jason Directive, which placed U.S. intelligence agencies against one another.

After surviving an attempt by Kiro Shami to usurp his leadership of the Calvo Cult, Korra tried to blackmail the world by making the crash of an alien. When Korra escaped punishment, AYEM-SHAMIN, whose mother had died in the crash, BLACK ADAM, NERVENOV, and SHAMINOV invaded Korra's Himalayan stronghold and executed him. DW

RETURN TO POWER Korra squashed an attempted coup in his Himalayan mountain lair in which diabolical cultists groomed an impostor to assume their master's place.

BURNER SHAMIN Rapido-throated pandemonium as a favorite for Korra, now here carrying a violent in highly gaudy and modern.

Through every crisis to come in the space-time continuum, one constant is that a group of young heroes and heroines will unite to defend their homeworlds from evil. Whether inspired by the boy who would become SUPERMAN or any of the costumed champions lost to history, the Legion of Super-Heroes will be that bright ray of hope in an uncertain future.

TIMELINE REBOOTS

The Legion has undergone numerous comic restructurings, with every universe-shaking crisis triggering major reworkings of the Legion's history and membership. The lineup from the original timeline drew its inspiration from young Clark Kent's adventures as SUPERBOY, and featured a core team of COLOSSAL BOY, SATURN GIRL, and LIGHTNING LAD. Over time this team swelled to include dozens of members, who stood against the universe's most dire threats (including DARKSEID) and the war-torn Earth. Eventually the alien Dominators overran Earth and caused the planet's destruction.

The clean-slate timeline that followed Zero Hour erased this Legion from history, replacing it with a similar lineup known for its alternate codenames ("Live Wire" for Lightning Lad) and fresh threats such as the BURN. The reality warps of the Infinite Crisis brought into existence a third Legion—but the rebirth of the multiverse indicates that all previous Legions currently exist in the future timelines of parallel worlds.

THE LATEST LEGION

In the current continuity following the Infinite Crisis, the Legion of Super-Heroes emerged on a 31st century Earth where governmental surveillance had become a way of life. With parents keeping obsessive tabs on their children, a teenage rebellion sprang up centered on admiration for the colorful superheroes a thousand years prior. The headquarters of the Legion of Super-Heroes served as a beacon of hope and a safe haven for teens, who camped outside hoping for a glimpse of their champions. BRAINIAC 5 of Colu proved the mastermind of the team, designing their flight rings and keeping tabs on trouble spots across the United Planets. Cosmic Boy, Saturn Girl, and Lightning Lad remained the heart of the Legion, with ELEMENT LAD lending the ability to transmute objects. ULTRA BOY, serving as the team's powerhouse, the shapeshifting CHAMELEON excelling as a spy, and the rookie INVINCIBLE KID providing a fresh perspective on the Legion's heroes. ULTIMATE BOY, a member of a race of giants from Antartica, possessed the ability to shrink to human size, and unsuccessfully petitioned for the ULTIMATE LAD. The United Planets wanted nothing to do with the team, and hoped to discredit them and their philosophy of non-violence.

LUTHOR, LEX

SUPERMAN'S GREATEST ENEMY

Lex Luthor

Real Name: Lex Luthor

Age: 30

Height: 6'0" Weight: 180 lbs. Eye: Blue Hair: Brown

Occupation: Businessman

Special Powers/Abilities: None

Weakness: None

Lex Luthor may be the most gifted man alive but rather than use his supreme intellect and skills for the betterment of mankind, the sociopath has continually sought power and influence without regard for the pain and suffering he causes. The gifts are also wasted on his single-minded hatred of a more pure and noble man, especially given his alien origins.

He once Luthor's only attempt to kill Superman all failed.

EVIL AND ALIENATED

Lex Luthor was born in Metropolis, Kansas, to a wealthy family. He was a brilliant student and a popular figure in his school. However, he was also a loner and a misfit. He was often bullied and teased, and he felt that he was different from the other boys. This feeling of isolation and alienation became a defining characteristic of his personality.

ONLY THE LONELY

Lex Luthor was a loner and a misfit. He was often bullied and teased, and he felt that he was different from the other boys. This feeling of isolation and alienation became a defining characteristic of his personality.

THE RISE OF LUTHOR

Years later, Lex appeared in Metropolis and built his technology company, LexCorp, into a powerhouse. Financial success led to political power, and he was considered the city's most powerful figure. Then came the day that Superman appeared in the skies above Metropolis and turned Lex's world upside down. Superman openly accused Luthor of being a criminal mastermind, rather than a benefactor of mankind. Unwilling or unable to link this "maddening alien" with the boy he had known a decade earlier, Luthor swore to bring down the Last Son of Krypton. Over the years, he has used his power and influence to plague the Man of Steel time and again.

KRYPTONITE RING

Luthor got in his licks but continued to be thwarted by Superman both directly and indirectly. On one occasion, a ring Luthor had fashioned from kryptonite gave him access to the radiation inherent in the alien rock. Lex faked his death, and transferred his mind into the body of a clone, pretending to be Luthor's heretofore unknown son. This Luthor soon evolved to resemble the original, but continued to come second in his struggle with Superman.

TWO STRANGERS

Lex Luthor was a loner and a misfit. He was often bullied and teased, and he felt that he was different from the other boys. This feeling of isolation and alienation became a defining characteristic of his personality.

EXCLUSION

Lex Luthor was a loner and a misfit. He was often bullied and teased, and he felt that he was different from the other boys. This feeling of isolation and alienation became a defining characteristic of his personality.

As Lex Luthor destroyed Metropolis by a bid to avoid exposure by Lois Lane.

METROPOLIS DESTROYED

Lex showed his true colors by refusing to sacrifice himself to help reignite the sun after the Sun-Eater had snuffed out its energy. When Lois Lane (as LANA LORR) exposed his criminal dealings, Luthor triggered devices hidden within Metropolis that destroyed the city. Superman and his fellow heroes rebuilt Metropolis and the battle between Superman and Luthor continued. His manipulations extended to Metropolis's citizens, who sided with Superman over Luthor.

CLASH OF WILL Perry White and Luthor never get along and it chafed when Luthor came to own Perry's beloved Daily Planet.

FRONT PAGE NEWS

Lain found out that Luthor had known of Imperia's threat earlier than stated. He demanded that this be the very first story Luthor killed, but the savvy reporter tricked him, giving her news to Clark Kent, who wrote a scathing piece, exposing Luthor for the criminal he was.

Wanted Luthor finally went mad in his own hands, attempting to destroy both Superman and Batman.

LUCKY FOR POWER

Realizing the need to remake the game, Luthor bought and then sold the Daily Planet to Perry White (see *Warrior*, *Parody*) on condition that Lois Lane killed any single story of his choosing. Feeling safe from exposure, Luthor ran for U.S. President to gain the power needed to bring Superman down. Surprisingly, he served the U.S. interests well, strengthening or forging relationships with many nations from Atlanta to Russia, and rallying the troops when terrorists arrived to destroy Earth (see *Great Britain*, pp. 342-5).

AMAZING MESSAGES

Luthor had secretly known of Imperia's doomsday plan, but advised Lois Lane to tell the story. However, Clark Kent pinned the full truth, naming Luthor's term as U.S. President.

U.S. President Luthor was quite effective in his post, improving diplomatic relations with Atlanta and other countries.

ACT OF MADNESS

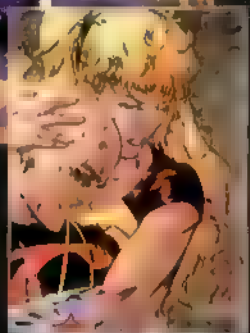

Luthor's presidential power still could not bring about the end of Superman and his costumed friends. When an asteroid threatened Earth, Luthor detected kryptonite radiation and used that to try and turn the public against the Man of Steel. He even sent costumed champions after Superman, but this gambit also failed. Finally, he donned a LastChap war suit and tried to take down not only Superman, but BATMAN as well. His efforts were in vain and his deception was made public. Driven from the presidency, Luthor was thought to have died but hopped to freedom, an angry vengeful man. RO

From a secret location, Lex Luthor plotted his return to power. With Lana Lang (see LANA, LANA) now in charge of LuthorCorp and Peacemaker (see PEACEMAKER, PEACE) stepping in to serve out the rest of Luthor's term as president, the stage seemed clear for a rebirth of Luthor's particular brand of genius. He began by activating buried programming in the mind of SUNDROP (see SUNDROP, SUN), turning him against his coworkers in the THIRTEENTH HOUR. The attack failed, but Luthor continued to think of Conner—a clone who shared 50% of his DNA with Superman and 50% with Luthor—as his own son. Lex's concern for Conner seemed genuine, but showed his protectiveness of the Luthor bloodline. By claiming Conner as his own, he had stolen a family member from Superman.

Luther showed Alexander Luther's corpse to resemble his own, then claimed that the late doppelgänger had been responsible for the worst crimes of the Luther presidency. The ruse fooled many, and Luther soon found himself the head of an ambitious experiment to transform ordinary citizens into superheroes. Dubbed the Everyman Project, the program attracted interest from thousands of hopefuls including Natasha Romanov (as IRON MAN, NATANUSA), niece of the hero SPIDER-MAN. Luther granted Natasha superhuman abilities, then grouped her with several other charismatic young people and launched the team as the all-new, corporate-owned INFINITY INC. But the test subjects of the Everyman Project soon learned the limits of their genetic gifts. On New Year's Eve, as part of a scheme to humiliate the hero Supernauts, Luther triggered the instantaneous shutdown of all his subjects' powers. Suddenly powerless, dozens of hopeful heroes died as they plummeted from the sky. Steel and Natanusa were contacted by Luther in his office, only to discover that he had temporarily acquired powers as well. The duo managed to outsmart Luther and bring him to justice.

POOR SHOW The goodwill he earned as U.S. president was gone. Luthor looked for revenge on the citizens of Metropolis.

Kryptonian Science

Yet Luthor managed to escape incarceration. Faced innocent of all criminal charges related to the Everyman Project, Luthor tried to resume his position as one of the Metropolis elite in the face of widespread public condemnation. Deciding that Superman was the obstacle preventing his return to fame, Luthor retrieved a long-buried Kryptonian technology and led an assault on Metropolis using crystalline war machines not seen since the golden age of the long-dead planet. His plan was to discredit Superman as a failure. Luthor again went underground. Later he assembled a Revenge Squad consisting of the **PARADISE, MARALLO, and BOLANZO** to battle the invading armies of **GENERAL ZOD**.

REVENGE OF THE KRYPTONIAN Using self-assembling Kryptonian crystal technology, Luthor attacked Metropolis with an army of alien war machines.

THE SHOW His looks as sharp as ever, Luthor turned the new Kryptonian idea to generate the energy he required.

Since the hypothesis is $H_0: \mu = 0$, the test statistic is $T = \frac{\bar{X}}{\sqrt{S^2/n}}$. The test statistic is $T = \frac{0.0001}{\sqrt{0.0001/100}} = 1$. The test statistic is $T = 1$. The test statistic is $T = 1$.

DOCTOR KIRK LANGSTROM was an expert in animal biology. One day, while working in his laboratory, he discovered a vial of bat blood. He was so intrigued by the glowing features he tried to create a serum that would give humans some of the powers of bats. He had just done it when he was attacked by a bat. The bat was so large and so fast that he was unable to escape. He was killed. When he awoke, he found himself in a small, dark, and damp room. He was alone. He was the only one who had survived. He was the only one who had been transformed. He was the only one who was a Man-Bat.

Daughter of the first STARMAN's arch-enemy MI-1, the woman known only as Nash might have lived a very difficult life had her brother Kyle not been killed battling David Knight, Starman's son and successor. With her friends rather driven mad with grief, the mentally unbalanced Nash took on his role as Miss M.

David Knight had already been killed, so Nash targeted David's brother Jack, the newest Starman, and all of Opal City for a reign of terror. She kidnapped and drugged Jack, concealing his child without his knowledge. When Jack learned the truth, his child had already been born. The Miss atrocities included the murders of America's Maw II, Blk I, Day I, and the Crimson Fox.

Nash subsequently introduced Jack to his son as a precursor to killing the young hero. Instead, the hero died alone by her own insane father as he reclaimed the mantle of the Miss. Jack took custody of his son and prey that the toddler does not know his psychotic mother. **SB**

The first Mongol was a deeply able warrior who ruled the universe on his planet, Warworld. This giant mobile weapon was trained by thousands of slaves who were forced to fight in brutal gladiatorial games. On a self-imposed exile in space, Superman was captured by alien slaves and sold to the gladiator pits of Warworld. When Superman refused to kill his opponent, Drago, Mongol entered the arena to personally slaughter the Man of Steel. But Superman defeated the tyrant and was transported off Warworld while Drago replaced the debilitated Mongol as its ruler. Mongol then joined forces with the Cyborg.

Superman and destroyed the Cyborg, murdering its seven million inhabitants and hoping to transform it into a new version of Warworld named Engine City. Defeated and imprisoned, Mongol was offered more power by the demon Neron in exchange for his soul. When the alien legion possibly returned, this other Neron killed him.

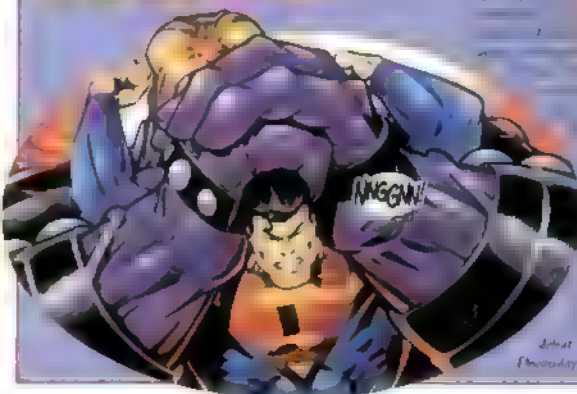

Some time later, Mongol's son and namesake arrived with his war.

Steel, but was quickly defeated. After a mission to liberate the planet from his lunar prison, Mongol II was slain by the mind-blowing creature, Pl.

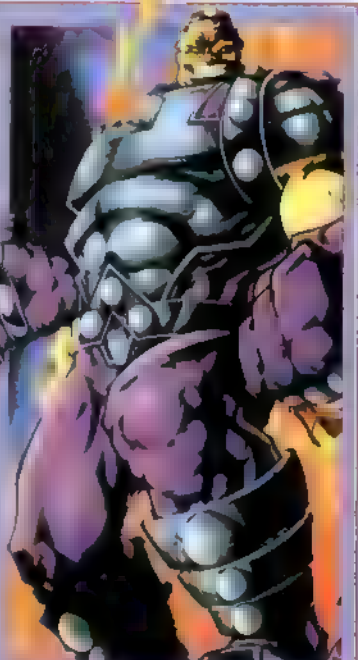

GLADIATORIAL COMBAT In Warworld, the greatest warrior of a thousand conquered planets fought each other to the death in Mongol's entertainment. When Superman was found lost in space, he was captured by Mongol and fought the villain in a gladiatorial pits where he nearly killed the Man of Steel. But Superman escaped the gladiatorial arena, Mongol's rule, and Mongol was forced to flee Warworld.

To protect themselves from persecution, the Jews of 16th century Prague selected a wooden Golem from their clay. Wary of the monster they created, the Council of Rabbits decided that the Golem should be replaced with a human defender. The Rabbits chose rag to clothe their new champion who, like the Golem, was empowered by a voice in the Kaballah. Thus, the "Ragman" was first used to guard over the Warsaw Ghetto. During World War II, Jerry Ragsdale took up the posthumous mantle of Ragman to protect Warsaw's Jews from the Nazis. Tragically, Jerry failed to spare his people from the horrors of the Holocaust. Years later, Jerry (renamed Gerry Ragan) after emigrating to the U.S.) passed down the Ragman's suit to his son, Perry, who first wore it to defend the oppressed denizens of Gotham City's slums. From his "Rag 'n' Bone" junk shop, Perry continues to add new rags to the garish garment of the "Revered Tatteredman." Ragman, Ragman joined the SHADOWBOX prior to the Infinite Crisis, fighting the weakened Doctor alongside his teammate and spending a year trapped inside a mystical sphere awaiting Krypton's Wyoming. 28

GHOSTLY The Spectre arrived just in time to save the world.

JIM CORRIGAN

James Corrigan was the only child of the Reverend Jeremiah Corrigan, a fundamentalist preacher who physically and emotionally abused his son to discourage him from the temptations of sin. As a teenager, Corrigan ran away to New York City and enrolled in the police academy, excelling at detective work. Self-righteous arrogant, Corrigan became a pitiless cop.

Corrigan's brutality caught up with him when he was killed by mobster Cat Benson in 1940. Corrigan's soul cried out for vengeance and was answered by the Spectre. Infused with the

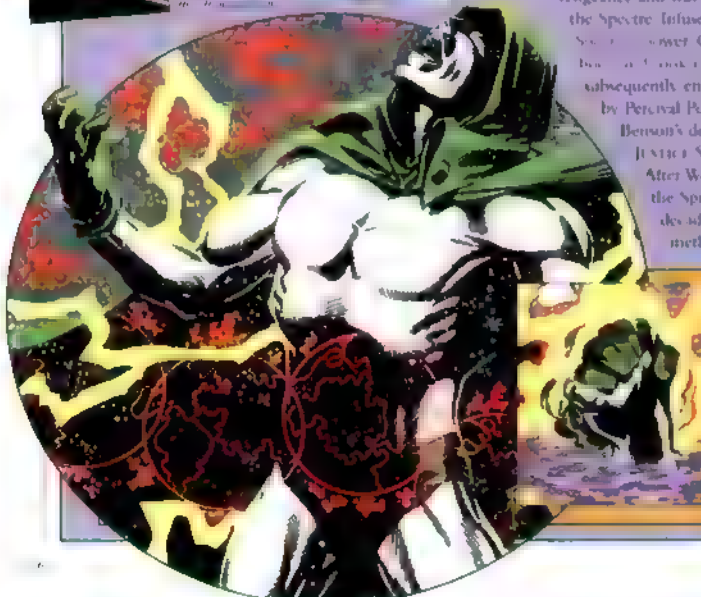

Spectre's power, Corrigan's spirit returned to his body in 1941 to avenge Benson. The Spectre was subsequently encouraged to use his power for good by Percival Poplanski, a patrolman who witnessed Benson's demise. Manifesting itself as a ghostly spirit, the Spectre joined the Justice Society of America as one of its most powerful members. After World War II, the Spectre fought the demon Azmodas, who trapped the Spirit of Vengeance in Corrigan's undead frame for nearly two decades. The *Green Lantern* quarreled often with his earthly host over methodology and the nature of humanity itself.

AVENGING ANGEL The Spectre's power is limitless.

THE CRISIS

During the Crisis (see Crisis 2000), the Spectre traveled back to the dawn of Creation as well as to the end of it, to see all of Creation as its hero. He became the first to see the end of the world, and he was once again separated from his host. He was once again separated from his host, and he was once again separated from his host. He was once again separated from his host, and he was once again separated from his host.

SPECTRE

UN-TETHERED SPIRIT

Hal Jordan's penance as the Spectre's host ended with the defeat of Parallax—an ancient fear entity that had been sharing space in Jordan's soul alongside God's Spirit of Vengeance. By defeating Parallax, Jordan won the right to resume his former life on Earth, leaving the Spectre a rogue ghost. Lacking the grounding of a human spirit, the Spectre went awry with the mortal world's natural order. He lashed out with irrational, disproportionate punishments, including executing a man for talking back to her father. In this disturbed state, the Spectre became an easy target for Eclipso—God's ex-Spirit of Revenge—who had taken over the body of Jean Loring (see *COMING OF AGE*). Eclipso's seductions convinced the addled Spectre that magic represented a perversion of God's orderly laws, and that only by eliminating all magic could he purge the universe of evil. Because he existed as a creature of magic himself, as his final act the Spectre planned to extinguish his own life. The Spectre's rampage against the mortal and mystical realms marked an end to what had been known as the Ninth Age of Magic. His first targets included the "big guys" of the magical community. The Spectre burned out the eyes of MARIAMNE KANABER so she would be incapable of reading tarot cards, and imprisoned DOCTOR FATE inside his enchanted helmet. Although the Spectre lacked the power to kill the PHANTOM STRANGER, he left him powerless by transforming him into a mouse. Dozens of lesser magicians perished when the Spirit of Vengeance attacked their mass gathering and saved the Kingdom of Atlantis tell beneath the Spectre's boots.

THREE DOWN In short order, the Spectre burned out his greatest threats: the Phantom Stranger, Doctor Fate, and...

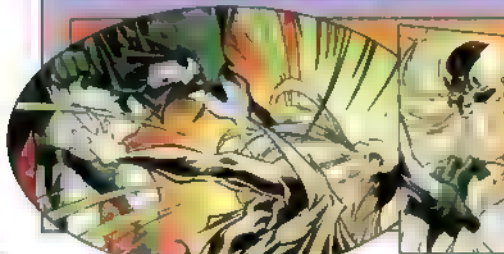

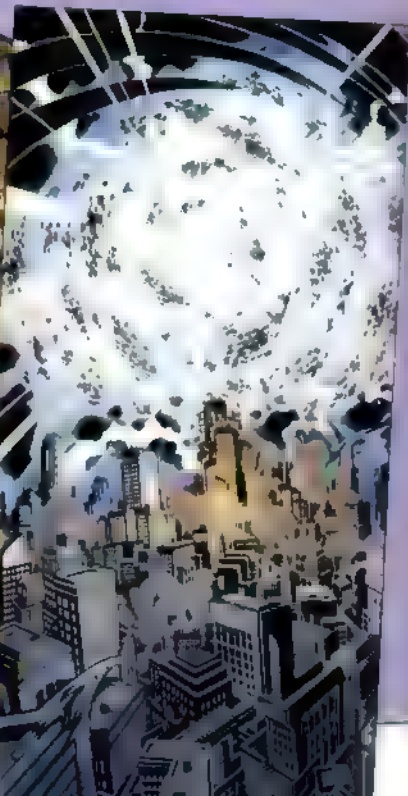

SHADOWPACT SHOWDOWN

The surviving magic users gathered in the Oblivion Bar to plan a counterattack. Their plans hinged on PERITHIA, GOD OF ROMAN NIGHTMARE, BET DIVER, the PROPHETESS, and DEATH EYE CUMBER, who had formed a super group known as the SHADOWPACT. In Budapest, the new team faced off against the combined forces of ECLIPSO and the Spectre, with the Shadowpact's efforts aided by CAPTAIN MARVEL and the channeled magical energy of the planet's population. The Spectre fled, but regained his strength for a second clash with the Shadowpact. This time, BLACK ALICE temporarily sapped his powers. Teleporting to the Rock of Eternity, the Spectre executed the wizard SHAZAM, causing the Rock to explode above Gotham City and freeing the spirits of the Seven Deadly Sins. Led by the Lord of Lies, NABU, the Shadowpact and other magic users collected the Deadly Sins and again earned the Spectre's anger. This time, however, the Spectre grabbed the attention of his heavenly master, who removed the Spectre from his mortal host.

CLASH OF TITANS

Temporarily sapped of energy, Captain Marvel engaged the Spectre in Budapest.

CRISPUS ALLEN

For years, Crispus Allen was a vigilante with his wife and two children. To keep him sane, Allen worked a detective. Renee Montana (nee Montana Rinehart) in the GCPD's Major Crimes Unit. Allen's life took a tragic turn when he was killed by a technician Jim Corrigan, who bore the same name (but

was otherwise unknown). Corrigan, who had originally been a police officer, was the Spectre's host. During his time as the Spectre, he had Allen save his partner's life by shooting at the villain, Black Spider. After the incident, Allen inquired into the matter, only to find out that Corrigan had been the one who had shot the bullet from the back of his head.

Allen was determined to give up the bullet, but by this point the crooked cop knew that Allen was doing in the name of justice. He tracked Allen down and told him that Corrigan had been the one who had shot the bullet from the back of his head.

THE LEGEND OF THE STARMAN, harnessing the stars for the greater good of humanity, stretches from the dawn of the atomic age through the millennia. It begins with wealthy amateur astronomer Ted Knight, who in 1939 created the Gravity Rod, which enabled him to augment or negate gravity. Clad in a super-hero costume, he took flight as Starmann.

Knights' hectic career led in his quest not only his beloved Chapel City but all of the US through his work with the Juvenile Society for America and the All Star National High School Basketball Tournament. For decades Knight was a member of the board of directors of the American Basketball Association (ABA) after helping them beat the

The Signal has since been revived several times, only under the orders of President Lee Leiber (for LUTHER, 1881) during the Imperial War, and again under the leadership of SERAPHIM RACE.

Atmunda Walker assembled a new Sikkid Signal following the Infinite Crisis, naming her even against BRACK ABAM and later using Signal operations to capture dozens of super-villains for sale on the diamond planet Saturnus. (2)

WHITE FISH

During the 1950s, the *Baldie Squad* became an elite force assigned to covert missions around Africa. Rick Flagg's wife died in a car accident. Flagg himself perished in a suicide mission against the Gurewan War. Whorel, their son, Richard Flagg Jr., under the eye of General J.E.B. Stuart (see *HALLOWEEN TRAIL*), grew up to become an Air Force colonel and the leader of a revamped *Baldie Squad*. Along with Karin Green, Jen Wright, and Hugh Evans, Flagg's Squad headed numerous threats to national security. After the tragic deaths of Wright and Evans on a mission in Cambodia, Karin Green had a mental breakdown, and the Squad was disbanded.

Decades later congressional aide Amanda Miller (see sidebar, **ASSASSIN**) created a new Suicide Squad, many of whom were superhuman criminals. In exchange for a pardon and a fix, the criminals agreed to undertake one mission. Risky. Big. It was intended to be the Squad's field commander.

By maintaining a cover group, the Satellite Squad undercut a number of missions, but several operatives died along the way, including Grace and Flay himself. After the terrorist Kenna outbought the U.S. intelligence community in one of his stunts at world domination, and Walker was sent to prison for crassness at Camp 4, the Squad was disbanded.

WORKING UNDER THE AUSPICES of Task Force X, a secret U.S. government agency, the Suicide Squad is a unit of paramilitary and meta-human operatives first assembled during World War II. Under the command of Captain Richard Pag, Sr., this "Suicide Squadron" comprised soldiers who chose service with the Squad in lieu of a court martial. The squad's assignments were considered suicide missions—hence its name!

father's not-so-secret hatred for the Last Son of Krypton. As salaried super hero, the Superson helped to quell gang violence on Metropolis streets and the super villain embodied by Superman's absence. Unfortunately, the precinct and telepathic Powers was killed in action, struck down by a gang member's bullet. He was replaced by the super hero, Maximum. The Superson of America eventually left father's employ. They participated in the gold fight against the OMAC units prior to the future Crisis, which left many of them grievously injured. SB

Act of 5071 146 11

Supernemy returned to Minneapolis as Project Catalyst's unpaid agent and also helped found YOUNG JUSTICE. Supernemy was then kidnapped by the Agency, a clandestine organization of slaves, and was replaced for months by an evil duplicate named Mantic. Supernemy eventually rescued the Agency, but not before Tina Moore was killed by the Agency's leader Amanda Spencer, Paul Woudschaff's cybernetic daughter. Supernemy was then adopted by Supernem's patron, Jonathan and Martha Kent (see KENTEL THE), and enrolled in Smallville (High School) as Connor Kent, Clark Kent's young cousin. After Young Justice's dissolution, Supernemy joined the Titans TITANS. He then learned that his human cousin of DNA was Lex Luthor's (see LUTHUR, LEX), a horrifying secret he initially shared only with his innermost friend.

Super Man Robin helped Superman defeat the monster from the young alien past—the source of his human DNA—a move the *Big Blue* was sure to reward.

FRIENDLY FIRE

When the Kents' farm was destroyed by a meteorite, Clark's parents died. He was raised by his adoptive parents, Mr. and Mrs. Clark Kent.

INHERITING CRIMES

Clark's adoptive father, Mr. Kent, was a criminal. He was a member of the "Crime Syndicate," a group of criminals who were the only ones who knew Clark's secret identity. Mr. Kent was a member of the "Crime Syndicate" because he was a criminal.

LEN'S LEGACY

Clark's adoptive mother, Mrs. Kent, was a criminal. She was a member of the "Crime Syndicate," a group of criminals who were the only ones who knew Clark's secret identity. Mrs. Kent was a member of the "Crime Syndicate" because she was a criminal.

FINAL MOMENTS

Superboy Wonder Girl and Nightwing charged into battle to sabotage Alexander Luthor's world-birding. When Superboy Prime arrived, he was the only one who could stop them.

CORRELATION PARADIGM CONVERGENCE—suggested prior to the current split. Correlation of the two. If one subpopulation is more susceptible to the soil survival of *K. fragilis*, that would be a subpopulation that is more susceptible to the soil environment where *K. fragilis* is more abundant. The *K. fragilis* is more likely to survive as well and found the way to

With No one powerful enough to let us stop them, that would be the worst case. The worst case is that we would be able to reform from within, but we would not be supported by the ruling class. Less, less, hoping it could help during this deadly time.

OUT OF ACTION

Several hundred years ago, soon after the formation of the United States, Benjamin Franklin and other founding fathers used a mystical ritual to create the American Talisman. The Talisman would embody the very spirit of the U.S. and materialize by magically binding itself to a

After World War II, the American Talisman was destroyed and Uncle Sam's energies waned. An evil group called the National Interest tried to recreate the shattered Talisman but the Avengers defeated the Interest as well as the American Secret, the insane personification of American culture. The Talisman was reassembled and Uncle Sam became the Patriot, defeating the U.S. most notably during the Japanese War (see Great Battles, pp. 162-3). The spirit then relapsed the title Uncle Sam.

During the Infinite Crisis, the Freedom Fighters lost a brutal fight with the members of the villainous Society of Villains United. Believed killed, Uncle Sam returned to defeat the sinister Father Time and his

GREAT BATTLES

Why are there super heroes? Perhaps the cosmic presence that governs the universe created so many meta-humans in the 20th century in preparation for the creation-shaking threats soon to follow. Without the JLA, the JSA, and other champions of freedom, the Earth and all of reality would long since have ceased to exist!

THE APPELLAXIAN CONTEST

Seven champions came from a distant star to slug it out on an Earth battlefield and determine which of the seven was fit to rule the Appellaxian empire. Assuming "basic forms" of glass, fire, rock, mercury, wood, ice, and a glass golden bird, the seven met with defeat thanks to the embryonic JUSTICE LEAGUE OF AMERICA—AQUAMAN, GREEN LANTERN, THE FLASH, MARTIAN MANHUNTER, and BLACK CANARY. An eighth Appellaxian went untried. He called seven thousand of his planet's top shock troops for a full-scale alien invasion.

GIANT SHIPS

All of Earth's heroes united to defeat the Appellaxian armada, ultimately sending them back to their own planet through a mystical wormhole. The conflict is still remembered as the JLA's baptism of fire.

THE IMPERIEX WAR

The cosmic tyrant IMPERIEX hungared to reshape the universe in a new Big Bang, wiping out all that had gone before. SUPERMAN led a galaxy-wide coalition of superheroes to oppose his anodymic churning. The Imperiox War—a period sometimes referred to as a "One World at War"—was inevitable if the universe was to be saved. Earth's defenders included an unlikely alliance of DARKSEID and U.S. President Lex Luthor (or LYNNEX, later), whose combined forces provided the necessary edge when the omnipotent potency BRAINIAC II overtook the fight on the side of evil. Among the war's many casualties were most of the population of Topala, Kansas as well as HYPOLYTA—Wonder Woman's mother and the Golden Age Wonder Woman.

DEATH OF THE TITANS
Topala is no place during the Imperiox War.

Heroes including "Paradise" shattered their wounded in the shocking conflict, including some of the greatest heroes the Earth has ever seen.

THE CRISIS ON INFINITE EARTHS

The most significant event ever to shake the universe is the one that almost no one can remember. In an earlier reality, creation was ordered into a "multiverse" with multiple parallel Earths—Earth-2 for the Justice Society and an Earth-S for the CAPTAIN MARVEL family, alongside an infinite number of others. The omnipotent Anti-Monitor began destroying all parallel universes, and his heroic mirror-image the MONITOR gathered heroes from all realities and dimensions to fight him.

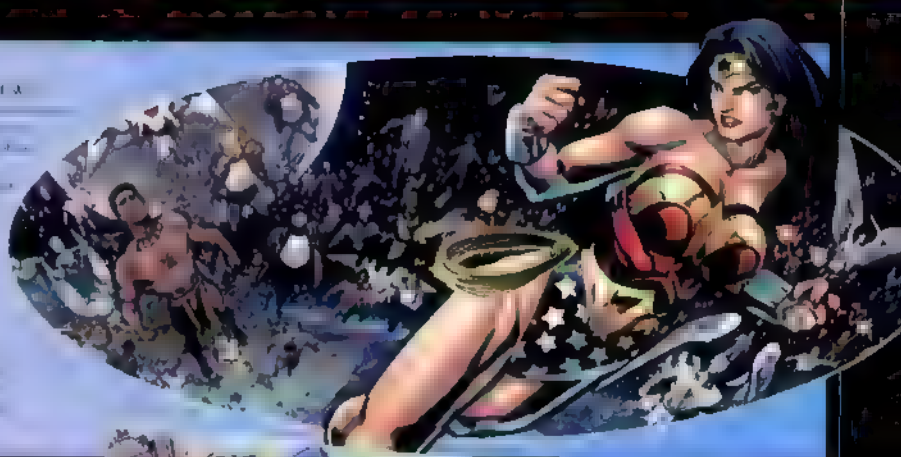

In order to save what was left, the Monitor merged the Earth-histories into one and the universe was reborn as if it had always been that way. Then, while modern heroes remember a battle called the Crisis, they have no memory of a multiverse. Some heroes who died in the Crisis (such as the Barry Allen Flash) still perished in the reborn version of the event, while others (such as the pre-Crisis version of Supergirl) had their deaths—and entire histories—collectively wiped from existence.

Among the characters who can remember bits of pre-Crisis reality are the Psycho-Peace, the LINCOLN MEN, and presumably some of God's agents, such as the PHANTOM STRAIN and the SPECTRA.

ZERO HOUR

Essentially a Crisis aftermath, the history-shaking Zero Hour united the villainous EXTANT with the delusional late PARALLAX, who wanted to remake the universe and remove all pain and loss. A team of super heroes followed Parallax back to the dawn of time and prevented his larger plan, though reality was still reborn in a slightly modified form. Zero Hour's biggest effects were felt in the 30th century, where the history of the LEGION OF SUPER-HEROES experienced a complete reset. DW

Somehow potatoes absorb Fe^{2+} in soil. In soil, Fe^{2+} is more available than Fe^{3+} .
In potatoes, Fe^{2+} is reduced to Fe^{3+} and then absorbed by the plant.

THE AMAZONS AND THEIR ISLAND

Created 3,000 years ago by five goddesses of Olympus, the Amazons are a race of warrior women charged with the responsibility of promoting the peaceful ways of Gaia, the earth spirit. After Hercules and his crew ransacked the Amazons' home of Themyscira, the Amazons, by decree of the goddesses, were sent to Themyscira, the island of peace, where they were granted the responsibility of promoting the peaceful ways of Gaia, the earth spirit.

Rebuilding their great city of Themyscira, the Amazons lived in idyllic solitude from beyond their shores named Diana Trevor, a pilot from beyond their shores named Diana Trevor, a pilot from beyond their shores named Diana Trevor.

DIANA TREVOR: A pilot for the Women's Auxiliary Ferrying Squadron, Diana Trevor was the first mortal to see the island of Themyscira. Captured by the Amazons, she was given the task of ending the war god Ares' male scheme to destroy the planet.

DIANA PRINCE

ΗΥΠΟΘΕΣΗ 1 ΚΑΙ ΚΑΤΑΛΟΓΟΣ

The first case has been discussed by Goldstein

Calvin and Supergirl tried to force the President's hand by attacking A. The situation escalating out of control, Wonder Woman traveled to Themyscira. Athena seemingly mistaken by battle just disturbed by the encounter Diana returned to the island. She was shocked by the US military's weakness. She long enough to loosen her hold over Themyscira who finds a lot of fear of the US words and called off the invasion army. Athena apologized to Themyscira to Earth but banishing most of the Amazons to the lives as mortals. No one present realized that the goddess they believed to be Athena was an illusion projected by Granny Goodness of Apokolips. [PJ/DW](#)

The Amazons returned with a vengeance. In a seemingly unprovoked attack on Washington DC, Amazon warriors entered the Capitol building while others hoisted the American flag on the Washington Monument to the Washington Monument where they fired by catapults and missiles. Queen Hippolyta stood at the head of the invasion. Recently resurrected by the sorceress Circe, Hippolyta acted both rational and bloodthirsty with her Amazon warriors.

ACKNOWLEDGMENTS

SCOTT BEATTY would like to thank his editors Chris Ceris, Alastair Dougall, and Laura Gilbert for their enduring patience. Thanks also to fellow writers Bob Greenberger, Phil Jimenez, and Dan Wallace for always watching my back. Additional gratitude goes to Ed Bri Baker, Joey Cavalieri, Chuck Dixon, Devin Grayson, Scott McEllar, Jerry Ordway, Greg Rucka, Gail Simone, and Michael Wright for helping to ply the choppy waters of comic book creativity. Finally, special thanks to Jennifer Myskowski, my first and best reader, and Wilbur (a dog's dog) and source of endless distraction.

BOB GREENBERGER would like to thank John Wells (first and foremost, much of this book wouldn't be this good without him).

PHIL JIMINEZ would like to thank the writers and artists who created the DC Universe with their talent and imagination. Few places feel so much like home. I'd also like to thank Chris Ceris for the hot fruit, the Dredd Dogs, and the grape sodie. Alastair Dougall for actually reading my hundreds of e-mails, even the ones about Ten Pest, and as ever, George Perez for without his influence on my work I'd never have had a career. And finally, a nod to Neal Pozner, a decade after his death, for so much, to Jack Malen for taking care of me for so long, and to Joe Hosking, for just about everything.

DAN WALLACE would like to thank DC Comics, Chris Ceris for his unceasing cheer and for bringing him on board to play in the buff-bum-soakiest fictional universe ever created, his co-writers Phil Jimenez, Scott Beatty, and Bob Greenberger for producing such great work and for supplying me with bits of DC lore, DK's Alastair Dougall and Laura Gilbert for always coming through at the eleventh hour, Kelly Andrew Grant and Emma for their love and support, Detroit's own Time Travelers Comics and Books for their back issue bins, and Jerry Siegel and Joe Shuster for birthing a genre. Thanks also to the Absorbacost, Again With the Comics A/C/N, Alert Nerd, Benicoup, Kevin Blockade, Boy Bully, the Comic Treadmill, the ISB Dave's Long Box, Doomkopf, Living Between Wednesdays, Petite Dissert, Progressive Rain, Second Printing, and the rest of the comics blogging community.

DORLING KINDERSLEY WOULD LIKE TO THANK THE FOLLOWING AT DC COMICS: Emily Ryan Lerner, Bob Joy, John Morgan, Andrea Schochet, Marc Bolling, Chris Ceris, Paul Levitz, Steve Korte, Georg Brewer, Allan Asherman, Iriss Stein, Roger Bonas, Anton Kawsaka, Ivan Cohen, Kilian Plunkett, Patrick Gleason, Christian Adams, Carla Johnson, Demetri Detsaridis, and Richard Colclander. And of course Scott Beatty, Bob Greenberger, Phil Jimenez, and Dan Wallace.

DORLING KINDERSLEY WOULD ALSO LIKE TO THANK THE FOLLOWING: Nick Avery, Dan Bunyan, Lisa Crowe and Sandra Perry for additional design assistance, Julia March and Kate Simkins for editorial assistance, and Ann Barrett for the index.
